Millions of Christians have struggled with how to reconcile God's love and God's judgment: Has God created billions of people over thousands of years only to select

a few to go to heaven and everyone else to suffer forever in hell? Is this acceptable to God? How is this "good news"? Troubling questions—so troubling that many have lost their faith because of them. Others only whisper the questions to themselves, fearing or being taught that they might lose their faith and their church if they ask them out loud. But what if these questions trouble us for good reason? What if the story of heaven and hell we have been taught is not, in fact, what the Bible teaches? What if what Jesus meant by heaven, hell, and salvation are very different from how we have come to understand them? What if it is God who wants us to face these

questions? Author, pastor, and innovative teacher Rob Bell presents a deeply biblical vision for rediscovering a richer, grander, truer, and more spiritually satisfying way of understanding heaven, hell, God, Jesus, salvation, and repentance. The result is the discovery that the "good news" is much, much better than we ever imagined. Love wins.

Hans Joachim Iwand's 1941 monograph, *The Righteousness of Faith According to Luther*, is an important contribution to contemporary appreciation of Luther's theological significance for today. Although Iwand wrote his study three decades after the beginning of the Luther Renaissance, it nevertheless developed some of the central insights of Luther scholarship during that period. Two concepts--in particular, promise and simultaneity--are crucial to an appreciative understanding of Luther's doctrine of justification. The language of promise presents justification to the believer as a reality

that has yet to arrive or is hidden under present reality. And the language of simultaneity attests that humans remain throughout their lives one in the same, sinner and saint. This beautiful translation by Randi H. Lundell makes Iwand's down-to-earth presentation of the doctrine at the heart of Luther's theology, at long last, available to English-language readers.

The Union is a prophetic message that confronts deceptive and divisive strongholds of the last days' churches. Let the Holy Spirit, our Teacher, untangle the confusion that has divided us by blinding

us to the pure Word of God. The uniqueness of The Union lies in its goal of perfect unity among Jewish and gentile believers through the singular nature of Truth. To that end, revelations of deep, formerly hidden passages bring mysteries to light in this eye-opening Biblical exposition.

Search and find hidden manna that brings us into the fullness of life in Christ. Discover how God's covenants clarify a single gospel to us all. Examine the Jewish roots of the Christian faith to appreciate the unity of the Scriptures, and let the Word of God lead us into The Union at last! The integrity of the Word advances through The Union to purify and prepare the elect. Today it is urgent that

those who profess faith in the Savior receive the Word of God in preference to the words of men. With nearly three-thousand verses, "Repent and believe all the Scriptures!" is the charge of The Union to the churches in these extraordinary times. The Messiah will return for a blameless and spotless Bride, holy in faith and conduct. "Be prepared to meet Him!" is the resonant call of The Union. Former co-host of the internationally syndicated radio program, Man Alive, Joan Richardson is anointed with the gift of prophecy as a motivational speaker, evangelist, and author. *Doctrine* David C Cook Allows the reader to easily find all biblical occurrences of a word

in the King James Version; points the reader to the underlying Hebrew and Greek words using the Strong's numbering system; updated Hebrew and Greek dictionaries give brief definitions of each word of the original languages. Cover. The Uniqueness of Jesus Christ Simon and Schuster

 OFFERS VALUABLE

INSIGHT INTO THE COMPLEX NOTION of biblical perspicuity. He sets the issues within the history of the church and traces how the Bible's clarity has been understood practically and theologically over time. With precision and care he clarifies the role of historical context, authorial intent and reader response in a constructive articulation of how we come to understand Scripture's meaning. Contemporary literary studies inform his discussion and suggest the importance of intertextuality and intratextuality in the reading of Scripture. Ultimately, Callahan argues, Scripture must be viewed as a privileged text within a privileged community. Nevertheless, it must

be read, not arrogantly, but with humility under the searching glance of the God who caused it to be written.

This volume explores the creation of the collection now known as the New Testament. While it is generally accepted that it did not emerge as a collection prior to the late second century CE, a more controversial question

is how it came to be. How did the writings that make up the New Testament—The Gospels, the so-called Praxapostolos (Acts and the canonical letters), the Epistles of Paul, and Revelation—make their way into the collection, and what do we know about their possible historical origins, and in turn the emergence of the New Testament itself? The New Testament as we know it first became recognisable in more detail in Irenaeus of Lyon towards the end of the second century CE. However, questions remain as to how and by whom was it redacted. Was it a slow, organic process in which texts written by different authors, members of different communities and in

various places, grew together into one book? Or were certain writings compiled on the basis of an editorial decision by an individual or a group of editors, revised for this purpose and partly harmonised with each other? This volume sketches out the complex development of the New Testament, arguing that key second century scholars played an important role in the emergence of the canonical collection and putting forward the possible historical origins of the text's composition. Christ's Torah: The Making of the New Testament in the Second Century is of interest to students and scholars working on the New Testament and anyone with an interest in early

Christianity more broadly.

Romance and System: The Theological Synthesis of Matthias Joseph Scheeben

Routledge
This book is concerned with the rationality and plausibility of the Muslim faith and the Qur'an, and in particular how they can be interrogated and understood through Western analytical philosophy. It also explores how Islam can successfully engage with the challenges posed by secular thinking. The Quran and the Secular Mind will be of interest to students and scholars of Islamic philosophy, philosophy of religion, Middle East studies, and political Islam.

Patricia Crone's latest book is about the Iranian response to the Muslim penetration of the Iranian countryside, the revolts subsequently triggered there, and the religious communities that these revolts revealed.

The book also describes a complex of religious ideas that, however varied in space and unstable over time, has demonstrated a remarkable persistence in Iran across a period of two millennia. The central thesis is that this complex of ideas has been endemic to the mountain population of Iran and occasionally become epidemic with major consequences for the country, most strikingly

in the revolts examined here, and in the rise of the Safavids who imposed Shi'ism on Iran. This learned and engaging book by one of the most influential scholars of early Islamic history casts entirely new light on the nature of religion in pre-Islamic Iran, and on the persistence of Iranian religious beliefs both outside and inside Islam after the Arab conquest.

The Greek Testament: with a critically revised text: a digest of various readings: marginal references to verbal and idiomatic usage: prolegomena and a critical and exegetical commentary ... By Henry Alford Wipf and Stock Publishers
AN INDEPENDENT BEST BOOKS ON RELIGION
2014 PICK Few things provoke controversy in

the modern world like the religion brought by Prophet Muhammad. Modern media are replete with alarm over jihad, underage marriage and the threat of amputation or stoning under Shariah law. Sometimes rumor, sometimes based on fact and often misunderstood, the tenets of Islamic law and dogma were not set in the religion's founding moments. They were developed, like in other world religions, over centuries by the clerical class of Muslim scholars. Misquoting Muhammad takes the reader back in time through Islamic civilization and traces how and why such controversies developed, offering an inside view into how key and controversial

aspects of Islam took shape. From the protests of the Arab Spring to Istanbul at the fall of the Ottoman Empire, and from the ochre red walls of Delhi's great mosques to the trade routes of the Indian Ocean world, Misquoting Muhammad lays out how Muslim intellectuals have sought to balance reason and revelation, weigh science and religion, and negotiate the eternal truths of scripture amid shifting values.

Romance and System: The Theological Synthesis of Matthias Joseph Scheeben by Aidan Nichols, OP, is a comprehensive introduction to one of the most significant dogmatic theologians of recent centuries. Exploring the vigor, coherence, and beauty of Scheeben's theological vision, Nichols concludes that the great German theologian's work

combines “romance and system”: a lyrical appeal to the imagination and a virile challenge to the intellect, the inspiration of metaphor and the conceptual power of an architectonic account of the revelation carried by the Church. *Romance and System* examines the major themes of Scheeben's works and underscores their preeminence in Catholic dogmatic theology.

Rarely has an individual's life been so inseparable from his

writing as was Randolph Bourne's. His work reveals not only his political viewpoints but also his humanistic personality and the tumultuous era during which he lived. *Forgotten Prophet* carefully examines the intellect and personality of the "born essayist" who saw clearly both his century's potential for harmony and the danger that it faced from the lingering tides of nineteenth-century European nationalism. Disfigured and hunchbacked, Bourne reacted to his disability not with bitterness or self-pity, but rather with an exuberant love for beauty and a compassion for humanity that created in him a longing for a truly cosmopolitan society--a "trans-

national America" that would draw its strength from ethnic diversity and political pluralism. Nearly alone among American intellectuals, Bourne actively denounced involvement in World War I. He foresaw that, beyond the horrible cost in young lives, the war would bring in its wake the spiritual impoverishment of the nation and the disillusionment of its youth; it would strangle reform and social tolerance, exacerbate racism and nativism, and plant the seeds for further international instability. Although derided and largely ignored at the time they were written, Bourne's fearful predictions would all too quickly be confirmed in the

dissolute frenzy of the jazz age, the turmoil of the 1930s, and the social chaos that brought about the rise of fascism in Europe and, soon, an even more destructive war. Bourne did not live to witness this terrifying unfolding of events. His career as a social critic was brief but prolific. When he died in 1918 at the age of thirty-two, a victim of the flu epidemic, he had completed three books and more than a hundred essays. His first book, *Youth and Life*, is considered by some to be the original manifesto of the counterculture. From his earliest years as a writer, Bourne was identified as a voice for youth, idealism, and progress in human relations. *Forgotten Prophet* characterizes

Bourne not just as a foreseer of this century's bloodshed but, equally important, as an apostle of hope-- a champion of what was best, most truthful in the arts, in politics, and in the conduct of our daily lives.
