identifying readers who need more help to tips for dealing with the specific learning needs and styles of students; Using explicit instruction -- from encouraging tutors to recognize where students are and how to set goals to monitor and assess student progress; Promoting fluency and word recognition -- from teaching cueing systems and modeling effective reading strategies to using specialized techniques for introducing and reviewing decoding skills. Resources that teachers can copy and use with tutors are an important part of this handy resource. These materials explain the essentials of reading instruction and investigate the variety of techniques that

good readers use.

Teaching Reading in Today's Middle Schools Corwin Press

The Powers of Genre describes a method for interpreting oral literature that depends upon and facilitates dialogue between insiders and outsiders to a tradition. Seitel illustrates this method with lively examples from Haya proverbs, folktales, and heroic

verse. He then focuses on a single epic ballad to demonstrate, among other things, why stanzas need not rhyme, and how significance needs time in oral poetry and narrative. Making a controversial claim that an heroic age, similar to that of Ancient Greece, existed in Sub-Saharan Africa, this work will intrigue anyone who works in oral literature and narrative.
