Funny, engaging, and whimsical, Youkan Reading decodable books help assure children with dyslexia, or children who need decoding support, that reading is achievable and enjoyable. Series 1 has five (5) short stories in one book. The book follows a structured phonics scope and sequence beginning with one syllable, closed syllable words, and uses a chapter book format with illustrations. While reading Youkan Reading decodable books, children simultaneously supplement and support their day-to-day Orton-Gillingham based intervention program while reading for entertainment and meaning.

Orton Gillingham Decodable Readers: let's practice long and short vowels. Workbook

with decodable texts to help struggling readers to read. Black & White Edition. Volume 2. The "decodable readers" are books that are contrived to support kids practice a particular letter-sound pattern shown as part of a synthetic phonics curriculum. Books like this have no storyline; they are equally nonsensical whether you begin on the first page, or start on the last page and read backward. A book must be worth reading and provide kids the chance to discover the full spectrum of strategies needed to understand any book. In this book, we have included texts for the student to read and identify certain words within it. You will find that after each text the child is asked questions so that he not only focuses on reading but also on understanding and retaining certain data that the text teaches us. The book is reinforced with other activities that break the monotony and make it fun and challenging for the child, such as identifying the name of the given picture making sentences with the given word finding certain words in a word search and crossword puzzles. In this book we work on the letter 'e' Short 'e'

"Series 3, The Blugs, is a decodable chapter book that follows the humorous adventures of the Hed family. The Heds are from planet Greth, and run into some difficulty when a wild snick sneaks into their house. Youkan Reading decodable books are designed to supplement Orton-Gillingham based reading programs for young children identified with dyslexia, or who need additional practice with

decoding. Series 3 incorporates the skills from Series 1 and Series 2, and includes initial and final blends, letter combinations ang, ing, ong, ung, ak, ink, onk, unk, and exceptions ild, ind, old, olt, ost. Nonsense words are cleverly woven into the story as the setting is in another galaxy. Students enjoy reading about the antics of The Blugs while applying the skills to decode real and nonsense words. Optional comprehension questions are included at the end of each story." --

Level one contains beginner readers which introduce the sounds s,a,t,p,i,n. Each book contains a phonemic awareness activity which provides ongoing "training" for children in learning to hear and work with sounds. In the second pre-reading activity, the high frequency words, used within each story, are introduced. Whether it be for guided reading groups or parental discussion, the post-reading activities provided at the back of each Level one story allow for further learning. Through literal, inferential and evaluative questioning, children are given the opportunity to share and discuss what they have read and a vocabulary focus explicitly teaches a new word relating to each story.

Attention all parents and educators! Are you looking for a comprehensive and effective reading resource to help your students master vowel teams and gain confidence in their reading skills? Look no further than our new decodable reading book, based on the science of reading instructional approach and designed specifically for students in Kindergarten, First Grade, Second Grade, and Third Grade. Here are seven reasons why our book is the perfect solution for your child's reading needs: Vowel teams are pairs or groups of vowels that work together to create a new sound, such as "oa" in boat or "ee" in bee. These can be difficult for young readers to master, but with our decodable text book, students will have the support they need to learn and apply these important phonics rules. Our book features 41 engaging decodable stories that focus on vowel teams, using the Structured Literacy (The Science of Reading) approach to ensure that struggling readers and students with dyslexia can gain the skills they need to succeed. Each story features beautiful illustrations and age-appropriate content to make reading fun and engaging. With five or more decodable stories per each vowel team combination, your child will have ample opportunity to practice and reinforce their new skills. Our book is designed for students in Kindergarten,

First Grade, Second Grade, and Third Grade, making it a versatile resource that can be used across multiple grade levels. Our book is also perfect for homeschooling and centers work in the classroom, providing teachers and parents with a valuable tool to help students improve their reading skills. Don't let your child struggle with reading any longer. Order our decodable reading book now and give them the gift of literacy for life. Our book is a valuable tool for any parent, teacher, or tutor who wants to help their child succeed in reading and develop a love for learning.
