Rene Descartes: Oxford Bibliographies Online Research Guide University of Hawaii Press
This book, written by a team of experts from many countries, provides a comprehensive account of the ways in which translation has brought the major literature of the world into English-speaking culture. Part I discusses theoretical issues and gives an overview of the history of translation into English. Part II, the bulk of the work, arranged by language of origin, offers critical discussions, with bibliographies, of the translation history of specific texts (e.g. the Koran, the Kalevala), authors (e.g. Lucretius, Dostoevsky), genres (e.g. Chinese poetry, twentieth-century Italian prose) and national literatures (e.g. Hungarian, Afrikaans).

For updates online, visit the Nanzan Guide site at Nanzan Library of Asian Religion and Culture. The Nanzan Guide to Japanese Religions combines, for the first time in any language, state-of-the-field theoretical and critical discussions with concrete resources students and scholars need to conduct research on Japanese religions. Even seasoned scholars typically approach their research in an unsystematic manner, becoming familiar with a particular area of inquiry while remaining largely unaware of what exists in the rest of the field. This inefficient method hinders particularly less-experienced researchers and circumscribes their lines of inquiry. The Nanzan Guide provides both beginners and specialists with a reference that will serve as a basic introduction to Japanese religions and allow them to conduct research more proficiently and in greater depth. Overlapping and thought-provoking chapters, written by leading specialists, offer a variety of perspectives on the complicated and multifaceted field of Japanese religions. The essays are divided into four sections: religious traditions (Japanese religions in general, Shinto, Buddhism, folk religion, new religions, Christianity); the history of Japanese religions (ancient, classical, medieval, early modern, modern, contemporary); major themes (symbolism, ritual and the arts, literature and scripture, state and religion, geography and environment, intellectual history, gender); and "practical" essays (finding references and using libraries, working with archive collections, conducting fieldwork). A chronology of religion in Japanese history is also provided.

The series MISCELLANEA MEDIAEVALIA was founded by Paul Wilpert in 1962 and since then has presented research from the Thomas Institute of the University of Cologne. The cornerstone of the series is provided by the proceedings of the biennial Cologne Medieval Studies Conferences, which were established over 50 years ago by Josef Koch, the founding director of the Institute. The interdisciplinary nature of these conferences is reflected in the proceedings. The MISCELLANEA MEDIAEVALIA gather together papers from all disciplines represented in Medieval Studies - medieval history, philosophy, theology, together with art and literature, all contribute to an overall perspective of the Middle Ages.

Study Guide to The Plays of Euripides Chicago : American Library Association

Moses Maimonides's Guide of the Perplexed is the greatest philosophical text in the history of Jewish thought and a major work of the Middle Ages. For almost all of its history, however, the Guide has been read and commented upon in translation—in Hebrew, Latin, Spanish, French, English, and other modern languages—rather than in its original Judeo-Arabic. This volume is the first to tell the story of the translations and translators of Maimonides' Guide and its impact in translation on philosophy from the Middle Ages to the present day. A collection of essays by scholars from a range of disciplines, the book unfolds in two parts. The first traces the history of the translations of the Guide, from medieval to modern renditions. The second surveys its influence in translation on Latin scholastic, early modern, and contemporary Anglo-American philosophy, as well as its impact in translation on current scholarship. Interdisciplinary in approach, this book will be essential reading for philosophers, historians, and religious studies scholars alike.

A comprehensive study guide offering in-depth explanation, essay, and test prep for selected works by Euripides, one of the three ancient Greek tragedians whose work has survived. Titles in this study guide include Rhesus, Iphigenia In Aulis, Bacchae, Phoenissae, Orestes, Electra, Trojan Women, Helen, Iphigenia In Tauris, Ion, Suppliants, Hecuba, Heracles, Cyclops, A Satyr-Play, Andromache, Heracleidae, Hippolytus, Medea, and Alcestis. As a Greek playwright of fifth-century BCE his tragedies influenced modern dramas and even comedy. Moreover, many of his plays questioned politics of the time, setting him apart as a progressive writer. This Bright Notes Study

Guide explores the context and history of Euripides' classic work, helping students to thoroughly explore the reasons they have stood the literary test of time. Each Bright Notes Study Guide contains: - Introductions to the Author and the Work - Character Summaries - Plot Guides - Section and Chapter Overviews - Test Essay and Study Q&As The Bright Notes Study Guide series offers an in-depth tour of more than 275 classic works of literature, exploring characters, critical commentary, historical background, plots, and themes. This set of study guides encourages readers to dig deeper in their understanding by including essay questions and answers as well as topics for further research.

Hegel: Philosophy of History: Oxford Bibliographies Online Research Guide A&C Black
This multilingual glossary is a guide for translating writings by Edmund Russerl into English. It has been compiled and improved in the course of about thirty years for my own guidance. Its initial purpose and the tests it has undergone in use have determined its contents. The translations I have made are far from being limited to those I have published or intend to publish. As I read and translate more, occasions will doubtless arise to include more expressions in the glossary and to improve the lists of English renderings I shall thenceforth use. The glossary is given the present title and submitted now for publication because numerous experts have said it would be useful not only to other translators of Husserl but also to his readers generally. For a translation of such writings as Russerl's the guidance offered by ordinary bilingual dictionaries is inadequate in opposite respects. On the one hand, there are easily translatable expressions for which numerous such dictionaries offer too many equivalent renderings. On the other hand, there are difficultly translatable expressions that any such dictionary either fails to translate at all or else translates by expressions none of which fit the sense. In following such dictionaries a translator must therefore practise consistency on the one hand and ingenuity on the other. Hence the need for a written glossary such as this one.

Gottlob Frege (1848-1925) was one of the founders of analytical philosophy and the greatest innovator in logic since Aristotle. He introduced many influential philosophical ideas, such as the distinctions between function and argument, or between sense and reference. However, his thought is not readily accessible to the non-expert. His conception of logic, which was crucial to his grand project, the reduction of arithmetic to logic, is especially difficult to grasp. This book provides a lucid and critical introduction to Frege's logic, as he developed it in his groundbreaking first book Begriffsschrift (Conceptual Notation, 1879). It guides the reader directly to the core of Frege's philosophy, and to some of the most pertinent issues in contemporary philosophy of language, logic, mathematics, and mind. Unlike most other books, this commentary explains Frege's own logical notation, allowing students to study and appreciate those aspects of his work that he valued most but are least understood today.

Why is the Koran the deeper abstract cause of terrorism? What can Muslims and non-Muslims do about this? How can we help Muslims liberate themselves from medieval ways of thinking? Is there more in the world than Islam, Mohammed and terrorism? What is a real Muslim? How can an anti-

Muslim be defined? Hindu writer Dewanand provides answers to all these questions in a striking and scientific way, trying to present the interests of both Muslims and non-Muslims in a tactical way. Dewanand says he wrote this book to make sacrifices to Altecra and to show concern for all living creatures. Discover for yourself if he has reached his goal, when you read Koran: Forbid or Rewrite? In the first chapters, the PV Muslim scientific model scale is revealed. This is a psychological vectored model for classifying Muslims to understand them better. Dewanand says his book is intended to show respect for Muslims and to help them to grow spiritually. "I wanted to reform Islam and end the suffering and violence in many Islamic nations. I was raised as a Muslim by my mother and later on I converted to Hinduism." His book is the meeting point of three old civilizations: Islam, Western and Hinduism. That's why it is so important for the future of Islam and religion. Dewanand grew up in Surinam and at age twenty went to Holland to study. He now lives

in Delft, Holland. He has published numerous books in Dutch and these can be found on his website, www.dewanand.com. Publisher's website: <http://www.strategicpublishinggroup.com/title/Koran-ForbidOrRewrite.html>
