Entertaining folk and fairy tales from around the world focus on girls who learn from their mothers to face life with a spirit of adventure, kindness, and courage. This book brings together mother and daughter tales from all over the world. Each of the stories has a distinctive theme and flavour, but all of them share a way of looking at the feminine that embraces both dark and light, good and evil, showing us that the path to maturity requires learning how to deal with all aspects of life, and living wholeheartedly, with courage, generosity, and openness to change. The heroines of these stories include familiar figures such as "Demeter and Persephone," from ancient Greece; "Vasilisa the Beautiful," from Russia; and "Naomi and Ruth," from the Jewish tradition. There are also less familiar tales, among them "The Waterfall of White Hair," from China; "Great Mother Earthquake," from the Iroquois; and "The Girl and Her Godmother," from Norway. All of the stories deal with themes that challenge and guide us on many levels: the death of a beloved parent, the jealousy of a stepmother, the necessary hardship that often attends the passage to mature womanhood. At the same time, they show us how joy can arrive at the most unexpected moments, and how courage and adventure can fill every girl's life. Drawing on the collective wisdom of many generations, this is a book for mothers and daughters of today to share and to celebrate both together and as individuals weaving

the story of their own lives. AUTHOR: Josephine Evetts-Secker teaches English Literature at The University of Calgary, Alberta, Canada. A practising Jungian analyst, she has made a study of the feminine in folk and fairy tale from both a literary and a psychological perspective for many years. The Barefoot Book of Mother & Daughter Tales is her first book for children. Helen Cann was born in 1969. She trained at the School of Art, University of Wales, graduating in 1992. Since then, she has worked as an illustrator and artist, exhibiting in several European countries. In 1914, with the well-wishes of the Brazilian government, Theodore Roosevelt, ex-president of the United States; his son, Kermit; and Colonel Rondon travel to South America on a quest to course the River of Doubt. While in Brazil, Theodore is also tasked with a "zoogeographic reconnaissance" of the local wilderness for the archives of the Natural History Museum of New York. In addition to the perils of the incredibly difficult and dangerous terrain, the river was nicknamed "The River of Death" as a testament to its ferocious rapids. Covering a previously undocumented area of South America, this expedition would be a momentous undertaking and fraught with danger. The expedition, officially named Expedic o Cientific Roosevelt-Rondon, was not without incident; men were lost, a cannibalistic tribe tracked the group, and at one point Roosevelt contracted flesh-eating bacteria. In the end though, the Roosevelt-Rondon expedition was a success, and the River of Doubt was renamed the Rio Roosevelt in his honor. Written by a city-born boy who grew up to be a true explorer and leader, Roosevelt's Through the Brazilian Wilderness is a unique and important part of history, and it is indicative of the ex-president's true wanderlust and bravery. Candid black-and-white photos from the expedition fill the pages, adding further dimensions to this remarkable journey. Through the Brazilian Wilderness is an engaging must-read for historians, Roosevelt fans, and modern-day explorers alike.

"The book is like a dream you want to last forever" (Roberta Silman, The New York Times Book Review), now with a gorgeous new cover by the famed designer Peter Mendelsund A masterwork of W. G. Sebald, now with a gorgeous new cover by the famed designer Peter Mendelsund The Rings of Saturn—with its curious archive of photographs—records a walking tour of the eastern coast of England. A few of the things which cross the path and mind of its narrator (who both is and is not Sebald) are lonely eccentrics, Sir Thomas Browne's skull, a matchstick model of the Temple of Jerusalem, recession-hit seaside towns, wooded hills, Joseph Conrad, Rembrandt's "Anatomy Lesson," the natural history of the herring, the massive bombings of WWII, the dowager Empress Tzu Hsi, and the silk industry in Norwich. W.G. Sebald's The Emigrants (New Directions, 1996) was hailed by Susan Sontag as an "astonishing masterpiece perfect while being unlike any book one has ever read." It was "one of the great books of the last few years," noted Michael Ondaatje, who now acclaims The Rings of Saturn "an even more inventive work than its predecessor, The Emigrants."
