In the 1970s and 1980s there was a steady transfer of power in mainland Europe to new, powerful regional authorities and these, in their turn, started to build up a new form of intra-European co-operation. With the acceleration of European integration, the rise of the multinational firm and new media and transport technologies, the traditional defence-based nation-states are under threat. In this challenging study, Christopher Harvie alters the ways in which we have traditionally surveyed the European past by setting the positive and

negative aspects of the present European situation in their historical context. He reappraises the actors of 'national' politics, the persistence of types of civic and internationalist discourse and finally looks at the transactions which have created 'bourgeois regionalism', and its implications for the future of Europe. Harvie argues that we are only beginning to realise the shift in consciousness, as well as in politics and administration, that an integrated Europe will involve. *Let's Explore Europe!* Springer
Management models: many students will come across them in their studies, yet it is only when actually working with them that the function and benefit of management models are revealed. 101 Management Models gives a comprehensive overview of traditional models as well as innovations in

management models. To allow quick access to the models, several indexes are provided, arranged by objective, discipline and author. All models are discussed in a transparent format: the fundamentals of the management model; its application; the result; the pitfalls. This intuitive and accessible textbook will be useful for all students of management - particularly those coming at the topic from another background such as economics or engineering and is supported by a companion website:

This magisterial study proposes a revised and innovative view of the political history of Renaissance Italy. Drawing on comparative examples from across the

peninsula and the kingdoms of Sicily, Sardinia and Corsica, an international team of leading scholars highlights the complexity and variety of the Italian world from the fourteenth to early sixteenth centuries, surveying the mosaic of kingdoms, principalities, signorie and republics against a backdrop of wider political themes common to all types of state in the period. The authors address the contentious problem of the apparent weakness of the Italian Renaissance political system. By repositioning the Renaissance as a political, rather than simply an artistic and cultural phenomenon, they identify the period as a pivotal moment in the history of the state, in which political languages, practices and tools, together with political and governmental institutions, became vital to the evolution of a modern European political identity.

"The Brill Dictionary of Ancient Greek" is also available online and as a two-volume boxed set. "The Brill Dictionary of Ancient Greek" is the English translation of Franco Montanari's "Vocabolario della Lingua

Greca." With an established reputation as the most important modern dictionary for Ancient Greek, it brings together 140,000 headwords taken from the literature, papyri, inscriptions and other sources of the archaic period up to the 6th Century CE, and occasionally beyond. "The Brill Dictionary of Ancient Greek" is an invaluable companion for the study of Classics and Ancient Greek, for beginning students and advanced scholars alike. Translated and edited under the auspices of The Center for Hellenic Studies in Washington, DC, "The Brill Dictionary of Ancient Greek" is based on the completely revised 3rd Italian edition published in 2013 by Loescher Editore, Torino. Features The principal parts of some 15,000 verbs are listed directly following the entry and its etymology. For each of these forms, the occurrence in the ancient texts has been certified. When found only once, the location is cited. Nearly all entries include citations from the texts with careful mention of the source. The dictionary is especially rich in personal names re-checked against the sources for the 3rd Italian edition, and in scientific terms, which have been categorized according to

discipline. Each entry has a clear structure and typography making it easy to navigate. "For a number of years now, scholars at ease in Italian have benefitted enormously from the riches, layout, concision, and accuracy of Professor Montanari's "Vocabolario della Lingua Greca," with its added advantage of the inclusion of names. Hence classicists in general will welcome the English version of this very valuable resource." Professor Richard Janko, "University of Michigan" Franco Montanari is a giant in our field, and his Dictionary is a major leap forward for us. Professor Gregory Nagy, "Harvard University"

A wise, affecting novel from the beloved, award-winning author of Dickens and Prince, High Fidelity, and About A Boy. New York Times-bestselling author Nick Hornby mines the hearts and psyches of four lost souls who connect just when they've reached the end of the line. A Long Way Down is now a major motion picture from Magnolia Pictures starring Pierce Brosnan, Toni Collette, Aaron Paul,

and Imogen Poots. Meet Martin, JJ, Jess, and Maureen. Four people who come together on New Year's Eve: a former TV talk show host, a musician, a teenage girl, and a mother. Three are British, one is American. They encounter one another on the roof of Topper's House, a London destination famous as the last stop for those ready to end their lives. In four distinct and riveting first-person voices, Nick Hornby tells a story of four individuals confronting the limits of choice, circumstance, and their own mortality. This is a tale of connections made and missed, punishing regrets, and the grace of second chances. Intense, hilarious, provocative, and moving, *A Long Way Down* is a novel about suicide that is, surprisingly, full of life.

This volume includes a number of papers written in English and published in the last fifteen years in which the Italian labour market faced many changes. The book not only provides the international readership with a frame of reference - in both conceptual and legal terms - that helps to

appreciate the Italian Labour Law currently in force, but also represents a contribution to moving beyond the self-referential nature of the Italian debate on the reform of labour laws. As such, the book supplies the reform process of the Italian labour market with an international and comparative dimension which – in accordance with the programmatic approach of Marco Biagi – will also feed the debate at the national level.

This book presents a wide-ranging and critical exploration of a topic that lies at the heart of contemporary education. The use of digital technology is now a key feature of schools and schooling around the world. Yet despite its prominence, technology use continues to be an area of education that rarely receives sustained critical attention and thought, especially from those people who are most involved and affected by it. Technology tends to be something that many teachers, learners, parents, policy-makers and even

academics approach as a routine rather than reflective matter. Tackling the wider picture, addressing the social, cultural, economic, political and commercial aspects of schools and schooling in the digital age, this book offers to make sense of what happens, and what does not happen, when the digital and the educational come together in the guise of schools technology. In particular, the book examines contemporary schooling in terms of social justice, equality and participatory democracy. Seeking to re-politicise an increasingly depoliticised area of educational debate and analysis, setting out to challenge the many contradictions that characterise the field of education technology today, the author concludes by suggesting what forms schools and schooling in the digital age could, and should, take. This is the perfect volume for anyone interested in the application and use of technology in education, as well as the education policy and politics that surround it; many will also find its innovative proposals for technology use an inspiration for their own teaching and learning.

Nuclear disaster and human vulnerability interweave in the lives of four young people, an Ojibway Indian, an illegal Mexican migrant worker, a rock musician, and a sheep rancher's daughter with the

lives of three veterans of past wars. They are four different people with four separate lives: Sue, a young woman distanced from her native roots; David, a traveler in search of a dream; Laura, a student seeking her parents' understanding; and Peter, a rock star struggling to create the perfect sound. One looming fate threatens them all. And everything they love may be taken away in one fleeting second....

Based on the expertise of thirty leading experts on confiscation in the EU, this is the first book to analyse the practice of proceeds from crime confiscation in the original fifteen EU Member States. It examines the implementation of confiscation provisions in all three (investigative, judicial and disposal) phases of confiscation proceedings. It quantifies the enforcement of confiscation provisions in the EU, using an innovative and unique methodology and thereby furnishes understanding of obstacles and best practices. The conclusion of the book is that the 'tough on criminal wealth'

philosophy is largely alien to the everyday practice of law enforcement agencies. Putting criminals behind bars is still the main aim of the system, and most of the scarce resources available are devoted to achieving this. This title is of interest to academics and students in the fields of criminology, sociology, and law, as well as to law enforcement officers, public prosecutors, and policymakers.

The first historical heroic epic authored by a woman, Scanderbeide recounts the exploits of fifteenth-century Albanian warrior-prince George Scanderbeg and his war of resistance against the Ottoman sultanate. Filled with scenes of intense and suspenseful battles contrasted with romantic episodes, Scanderbeide combines the action and fantasy characteristic of the genre with analysis of its characters' motivations. In selecting a military campaign as her material and epic poetry as her medium, Margherita Sarrocchi (1560?-1617) not only engages in the masculine subjects of political conflict and warfare but also tackles a genre that was, until that point, the sole

purview of men. First published posthumously in 1623, Scanderbeide reemerges here in an adroit English prose translation that maintains the suspense of the original text and gives ample context to its rich cultural implications.

In the late eleventh century, Sicily - originally part of the Islamic world - was captured by Norman, French and Italian adventurers, led by Roger de Hauteville. For the next 150 years, Roger and his descendants ruled the island and its predominantly Arabic-speaking Muslim population. Jeremy Johns' 2002 book represents a comprehensive account of the Arabic administration of Norman Sicily. While it has generally been assumed that the Normans simply inherited their Arabic administration from the Muslim governors of the island, the author uses the unique Sicilian Arabic documents to demonstrate that the Norman kings restructured their administration on the model of the contemporary administration of Fatimid Egypt. Controversially, he also suggests that, in doing so, their intention was not administrative efficiency but the projection

of their royal image. This is a compelling and accessible account of the Norman rulers and how they related to their counterparts in the Muslim Mediterranean.

Sonic ethnography makes a compelling argument for taking sound seriously as a crucial component of social life and as an ethnographic form of representation. This volume explores the role of sound-making and listening practices in the formation of local identities in the southern Italian region of Basilicata. With an approach that cuts across sensory anthropology, sound studies and ethnomusicology, Sonic ethnography demonstrates how acoustic

tradition is made and disrupted and acoustic communities are brought together in shared temporality and space. Based extensive research, this volume provides an innovative take on soundful cultural performances such as tree rituals, carnivals, pilgrimages and more informal musical performances, with particular attention to the interactions between classic ethnographic scholarship from the past century and the local politics of heritage. Featuring stunning colour photographs and more than an hour of sound recordings, Sonic ethnography uses a unique combination of media to investigate distinctive ways of knowing, beyond more traditional ethnographic forms of representation. Two methodological chapters, respectively on music-making as creative research practice and on photo-ethnography, make

the book an essential contribution for those interested in the production of sounds and still images as relational and interactive approaches to fieldwork. The pioneering anthropologist of sound, Steven Feld, collaborated to some of the research and contributed to the book an afterword and a soundscape composition.
