| <p><u>Ten Great Adventurers</u> Disney Electronic Content 'A novel of the young Columbus' - book jacket.</p> <p>Early Explorers of North America Wentworth Press Imagine stumbling across a forgotten continent, a place like nowhere else on Earth. A place inhabited by strange hopping mammals, venomous snakes, and Aborigines who hurl spears at your approach.You made it across vast, treacherous oceans, surviving on stale, fast diminishing provisions, and now that you've discovered the fabled Great Southern Land, you have to record its riches before you risk the long journey home.Although most nations knew of Australia from the 1600s at least, it took until 1788 for Europeans to settle it. The reason for that was mostly that the Europeans who saw New Holland thought the land dismal, uninspiring and lacking in riches. It might not have been settled at all if it hadn't been that Britain eventually decided the desolate, remote island would make a great prison!Learn about the first Europeans to discover the coastline of Australia, as well as the more glamorous explorers who headed into the continent's rugged, mysterious interior.The life of an overland explorer was far from glamorous. Men battled thirst, starvation, flies and mosquitoes, as well as illness and injury, in their quest to add their names to maps or history books.</p> <p><i>Meriwether Lewis</i> Marshall Cavendish Explains how the voyages of Columbus, Cabot, Ponce De Leon, and other European explorers to the American continents were the result of mistakes, accidents, and misses and discusses the explorers' cruel treatment of native peoples.</p> <p>Sea of Darkness DK Explorers Little-know facts and theories of the explorers who ventured into unknown territory.</p> <p>Explorers and Exploration Checkmark Books Provides a chronological overview of exploration since the late nineteenth century, detailing the successful and failed expeditions that traveled the globe across terrains including ice, peaks, deserts, jungles, seas, and underworlds.</p> <p><u>Explorers</u> Macmillan An exciting book for young readers about four of America's greatest explorers. Weird Hauntings Young Reed

During his travels as a missionary, David Livingstone beheld many previously unknown wonders of the African interior. He put Victoria Falls and Lake Ngami on the map, and was the first white man to cross the African continent. Diaries, reports and letters are combined to create a wonderful narration of Livingstone's travels in a widely unknown continent. Included in this harrowing tale is Livingstone's narrow escape from a lion's wrath, his negotiations with an African chief, and his account of the Portuguese slave traders brutally punishing slaves after their attempt to escape. The Life and African Explorations of Livingstone also reveals Livingstone's deeply-rooted Christian beliefs and the strength he took from them, strength that allowed him to live and thrive amid the hardships of equatorial Africa.

Explorers Oxford University Press, USA

Meet 25 female explorers and scientists in these inspirational and poignant stories of exploration, courage, and girl power. Along the way, they share lessons learned and words of wisdom sure to inspire the next generation of scientists, adventurers, and world-changers. Track a volcanologist as she braves the elements atop an active volcano. Travel alongside a mountaineer as she battles stereotypes—and frostbite—to conquer the famed Seven Summits. Join a conservationist on her passionate fight to save lions. Dig with a paleontologist to uncover massive dinosaur fossils, bit by breathtaking bit. These heartfelt stories give readers an insider's look at the amazing work female explorers at National Geographic—and beyond—are doing in the field to solve some of the world's toughest problems. Rather than detailing the lives of well-known women, this anthology celebrates lesser-known changemakers and outstanding women of diverse backgrounds, nationalities, and fields of study who are just beginning to make a name for themselves. Each profile is based on first-person interviews and comes paired with useful tips and relatable advice for budding explorers and scientists. Stunning photography and fascinating general interest information about the animals, places, and practices add drama and context. No Boundaries sends a positive message to every girl who has ever dreamed or dared to go a little further. And although these explorers' endeavors are quite adventurous, the lessons they share can inspire all girls, as well as boys, whatever their goals, skills, and interests.
