 "Max Beckmann is widely regarded as one of the most important figurative painters of the last hundred years. In *On My Painting* he reveals what it is that inspires his work. It was written in 1938 at a crucial juncture in Beckmann's life, and read by him at the opening in London of the Twentieth-Century German Art exhibition, a deliberate riposte to the Degenerate Art exhibition staged by the Nazi regime in

Germany. In concise, emotive, sometimes enigmatic language, Beckmann outlines not only his artistic, but also his moral and spiritual vision. *On My Painting* is essential for anyone seeking to understand one of the most complex artists of the twentieth century."--BOOK JACKET.

*Francis,... and J. W. Griffith,...* Gale Ecco, Print Editions

One of the most important German artists of the twentieth century, Max Beckmann was labeled a "degenerate artist" by the Nazis and chose exile. His artistic production encompassed the realism and figural themes of his early works to the provocatively blunt portraiture, critical urban views, and richly layered symbolic works for which he is now universally recognized. Although he was a prolific writer, his

written work has never before been collected and translated into English. Beckmann is known for the depth, pungency, and tremendous sensuous force of his works; only in the last twenty years have we come to learn more about his personal life. *Self-Portrait in Words* maps out Beckmann's life and draws attention to the occasions on or for which he produced his writings, to the importance writing had for him as a form of expression, and to both the contemporary and personal references of his

ideas and images.

This illustrated volume presents an overview of Beckmann's work, from his early years in Germany, to his decade in exile in Amsterdam, to his final year in the USA. A

critical analysis attempts to decipher Beckmann's expressionist language and to outline the themes that run through his work. **Max Beckmann** Rizzoli International Publications Max Beckmann is widely acknowledged as one of Germany's leading twentieth-century artists. A figurative painter throughout his career, Beckmann depicted the world around him with an unparalleled intensity. His art emerges directly from his experiences of the First and Second World Wars, the political

upheavals of the 1920s and 1930s, the rise of Nazism, exile in Amsterdam and his final emigration to the United States. By capturing the objects and events that surrounded him, Beckmann hoped to grasp the deeper mysteries underlying human existence. He perceived and painted the world as a vast stage, at once real and magical, upon which his own life and the traumas of contemporary history were closely intertwined. "On My Painting" can give a

valuable insight into understanding his work. It was composed in 1938 at a crucial juncture in Beckmann's life, just a year after he was included the "Degenerate Art" exhibition in Nazi Germany. It was read by him at the opening of the "Twentieth Century German Art" exhibition. With an introduction by Mayen Beckmann, the artist's granddaughter, and an afterword by Sean Rainbird. **German Expressionists and Max Beckmann** ABRAMS

This book provides an overview of twentieth-century German art, focusing on some of the period's key works. In Peter Chametzky's innovative approach, these works become representatives rather than representations of twentieth-century history.

Chametzky draws on both scholarly and popular sources to demonstrate how the works (and in some cases, the artists themselves) interacted with, and even enacted, historical events, processes, and ideas.-- [book jacket].

In December 1950, the German Expressionist Max Beckmann set out from his Manhattan apartment to see his Self-Portrait in Blue Jacket, on view at The Met, when he suffered a fatal heart attack. Inspired by the poignant circumstances of the artist's death, Max Beckmann in New York focuses on 40 beautifully illustrated works that Beckmann painted in the city during the last 16 months of his life, as well

as earlier works in New York collections. An informative and accessible essay by art historian Sabine Rewald, as well as detailed catalogue entries for each work and generous excerpts from the artist's letters, diaries, and ephemera, illuminate Beckmann's difficult and tumultuous life and make this an essential volume for anyone interested in the artist.

The 18th century was a wealth of knowledge,

exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries,

undergraduate students, and independent scholars. Medical theory and practice of the 1700s developed rapidly, as is evidenced by the extensive collection, which includes descriptions of diseases, their conditions, and treatments. Books on science and technology, agriculture, military technology, natural philosophy, even cookbooks, are all contained here. ++++ The below data was compiled from various identification fields in the

*German Historians and the Bombing of German Cities* Univ of California Press

This visually stunning volume offers perceptive examinations of several renowned German and Austrian Expressionist artists who redefined modern self-portraiture. The self-portrait has been a vital aspect of artistic expression throughout history. Neo-Classical painters such as El Greco and Rembrandt formalized the practice, and the first half of the

20th century saw a dramatic transformation in the self-portrait's style and context, especially in the hands of the German and Austrian Expressionists. Vibrant reproductions of works by Egon Schiele, Max Beckmann, Ernst Ludwig Kirchner, Oskar Kokoschka, and others are accompanied by essays that explore how these artists--many of whom were classified as "degenerate" by the Nazi party--imbued their images with eloquent expressions of resistance,

isolation, entrapment, and provocation. From Schiele's erotically charged and overtly physical paintings to Beckmann's emotionally fraught depictions of psychic trauma, this important examination of a powerful aspect of modern European painting brilliantly illustrates how the Expressionist self-portrait became a powerful weapon against artistic oppression.
