In occupied Belgium during World War II, Paul de Man (1919-1983) wrote music, lecture, and exhibition reviews, a regular book column, interviews, and articles on cultural politics for the Brussels daily newspaper *Le Soir*. From December 1940 until he resigned in November 1942, de Man contributed almost 200 articles to this and another newspaper, both then controlled by Nazi sympathizers and vocal advocates of the "new order." Later to become one of the most respected and influential literary theorists in America, de Man, then 21 and 22 years old, wrote primarily as the chief literary critic for *Le Soir*. His weekly column reviewed the latest novels and poetry from Belgium, France, Germany, and England. De Man commented extensively on major propaganda expositions, and interviewed leading writers and cultural figures, including Paul Valéry and the future Vichy Education minister Abel Bonnard. The political extremes of de Man's wartime writing are marked by two articles. His single anti-Semitic article, "Les Juifs dans la littérature actuelle" (4 March 1941), acquiesces in the deportation of Jews to "a Jewish colony isolated from Europe." But de Man later argued in defense of a Resistance-linked journal ("A propos de la revue *Messages*," 14 July 1942) against the "totalitarian" censors' "unconsidered attacks." This volume reprints in facsimile all of de Man's articles in *Le Soir* as well as three articles he wrote prior to the occupation in 1940 as editor of the liberal *Cahiers du Libre Examen*. It also includes English translations of the ten articles written in Flemish for the Antwerp paper *Het Vlaamsche Land*, in March-October 1942. The collection appears under the auspices of the *Oxford Literary Review*, England's leading theoretical journal for over a decade.

The second edition of the *Impact Evaluation in Practice* handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main

impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.

Francois Rabelais (1483?-1553) is a difficult and often misunderstood author, whose reputation for coarse "Rabelaisian" jesting and "Gargantuan" indulgence in food, drink, and sex is highly misleading. He was in fact a committed humanist who expressed strong views on religion, good government, education, and much more through the mock-heroic adventures of his giants. While most books about Rabelais have relatively little to say about his comedic genius, *Enter Rabelais, Laughing* analyses the many sides of Rabelais's humor, focusing on why his writing was so hilariously funny to sixteenth-century readers. The author begins by discussing how the Renaissance defined laughter and situates Rabelais in a long tradition of literary laughter.

Subsequent chapters examine specific contexts relevant to Gargantua and Pantagruel, beginning with the comic aspects of epic, chronicle, mock-epic, and farce, and proceeding to Renaissance and Reformation humanist satire, rhetoric, medicine, and law. All of these chapters combine information, much of it new, on the humanist message Rabelais wanted to convey to his readers, with an analysis of how he used his wit to reinforce his message. Rarely is a writer's work treated in such illuminating detail. On a broad level, *Enter Rabelais, Laughing* serves as an excellent introduction to French Renaissance literature and exhibits a remarkably charming and lucid writing style, free of jargon. To Rabelais scholars in particular it offers a thorough and innovative analysis that corrects misconceptions and questions commonly held views.

The *Book of Wisdom* is regarded as a precious document of the Alexandrian Jewish diaspora. During the 20th century, a considerable number of studies has been dedicated to the Alexandrian culture. This research requires a review of its a oeenjeux mA(c)thodologiquesa and a more ample and complete a oehistorical approacha seems to be necessary in order to comprehend to which extent the author might have been influenced by his social background. This study presents a comparison between scholars from different areas and with diverse approaches. It paves the way for a thematic assessment of the historical and theological aspects of the *Book of Wisdom* in order to research its structural unity, its particular historical value and the specific, not granted, theological importance.

Van Gogh in Saint-Remy and Auvers is the sequel to the highly acclaimed exhibition catalogue Van Gogh in Arles. The seventy paintings, eighteen drawings, and one etching selected for the present volume--drawn from public and private collections throughout Europe, the United States, and Asia for exhibition at the Metropolitan Museum of Art--include some of Vincent van Gogh's most famous images. Remarkable for their intensity and clarity of expression, they trace the development of van Gogh as an artist from May 1889, when he left Arles for a private asylum in Saint-Remy-de-Provence, some fifteen miles northeast of Arles, to his death in Auvers-sur-Oise, near Paris, in July 1890.

The *Stylistique comparée du français et de l'anglais* has become a standard text in the French-speaking world for the study of comparative stylistics and the training of translators. This updated, first English edition makes Vinay & Darbelnet's classic methodology of translation available to a wider readership. The translation-oriented contrastive grammatical and stylistic analyses of the two languages are extensively exemplified by expressions, phrases and texts. Combining description with methodological guidelines for translation, this volume serves both as a course book and through its detailed index and glossary as

a reference manual for specific translation problems.
