Me and Burnice is a collection of true stories that applauds growing up and everyday events in the 1940s. Abounding in humor, it uses laugh-aloud narrative to touch on the gentleness and richness of mankind. Told in a way the reader can be there and say, "That happened to me just like that" or "I identified with it all the way it was so easy to read." It chronicles the adventures of two boys, how they grow and entertain

themselves, and expand the limits of their imaginations. Although it was a simpler life they always went for the gusto.

Have you ever been kept awake at night with the feeling that there is more to life than meets the eye? This is the testimony of a boy whose sought all his life to find what

This American underground classic is a rollicking cosmic mystery featuring Albert Einstein and James Joyce as the ultimate space/time detectives. One fateful evening in a suitably dark, beer-soaked Swiss rathskeller, a wild and obscure Irishman named James Joyce would become the drinking partner of an unknown physics professor called Albert Einstein. And on that same momentous night, Sir John Babcock, a terror-stricken young Englishman, would

rush through the tavern door bringing a mystery that only the two most brilliant minds of the century could solve . . . or perhaps bringing only a figment of his imagination born of the paranoia of our times. An outrageous, raunchy ride through the twists and turns of mind and space, *Masks of the Illuminati* runs amok with all our fondest conspiracy theories to show us the truth behind the laughter . . . and the laughter in the truth. Praise for *Masks of the Illuminati* "I was astonished and delighted . . . Robert Anton Wilson managed to reverse every mental polarity in me, as if I had been pulled through infinity."—Philip K. Dick "[Wilson is] erudite,

witty, and genuinely scary."—Publishers Weekly "A dazzling barker hawking tickets to the most thrilling tilt-a-whirls and daring loop-o-planes on the midway to a higher consciousness."—Tom Robbins "Wilson is one of the most profound, important, scientific philosophers of this century—scholarly, witty, hip, and hopeful."—Timothy Leary

Contemporary contexts are discussed throughout enhancing the relevance and

interest for learners. *Telegraph Age Dell* From the growth in merchandising and product placement to the rise of the movie franchise, branding has become central to the modern blockbuster economy. In a wide-ranging analysis focusing on companies such as Disney, Dolby, Paramount, New Line and, in particular, Warner Bros., Brand Hollywood provides the first sustained examination of the will-to-brand in the contemporary movie business. Outlining changes in the marketing and media environment during the 1990s and 2000s, Paul Grainge explores how the logic of branding has propelled specific kinds of approach to the status and selling of film.

Analyzing the practice of branding, the poetics of corporate logos, and the industrial politics surrounding the development of branded texts, properties and spaces - including franchises ranging from Looney Tunes to Lord of the Rings and Harry Potter to The Matrix - Grainge considers the relation of branding to the emergent principle of 'total entertainment'. Employing an interdisciplinary method drawn from film studies, cultural studies and advertising and media studies, *Brand Hollywood* demonstrates the complexities of selling entertainment in the global media moment, providing a fresh and engaging perspective on branding's

significance for commercial film and the industrial culture from which it is produced.

The Animated Movie Guide CRC Press

Going beyond the box-office hits of Disney and Dreamworks, this guide to every animated movie ever released in the United States covers more than 300 films over the course of nearly 80 years of film history. Well-known films such as *Finding Nemo* and *Shrek* are profiled and hundreds of other films, many of them rarely discussed, are analyzed, compared, and catalogued. The origin of the genre and what it takes to make a great animated feature are discussed, and the influence of Japanese animation, computer graphics, and stop-

motion puppet techniques are brought into perspective. Every film analysis includes reviews, four-star ratings, background information, plot synopses, accurate running times, consumer tips, and MPAA ratings. Brief guides to made-for-TV movies, direct-to-video releases, foreign films that were never theatrically released in the U.S., and live-action films with significant animation round out the volume.

Thomson (independent scholar), writing of *The Biographical Dictionary of Film* (aka *A Biographical Dictionary of the Cinema*, 1975 edition), described it as "a personal, opinionated, and

obsessive biographical dictionary of the cinema." Thirty-five years and several editions later, that description still holds true of this expanded work. The new dictionary summarizes salient facts about its subjects' lives and discusses their film credits in terms of the quality of the filmmakers' work. In ambition it has competitors, including Leslie Halliwell's various editions of *Halliwell's Filmgoers Companion* (12th ed., 1997) and *Halliwell's Who's Who in the Movies*, edited by John Walker (4th ed., rev. and updated, 2006), which cover films and technical terms (categories not included in Thomson's), but whose entries are neutral and

exceedingly brief. Additionally, Francophile Richard Roud's edited *Cinema: A Critical Dictionary: The Major Filmmakers* (2 v., 1980) is as passionate a work as Thomson's, but narrower in scope, with entries written by various experts, rather than only by Roud. Finally, the multivolume magnum opus *The International Dictionary of Films and Filmmakers* (4th ed., 2000, ed. by T. Pendergast and S. Pendergast; 2nd ed., ed. by N. Thomas, v. 1, CH, May'91; 1st ed., ed. by C. Lyon, v.1-2, CH, Jan'85, v.3, CH, Apr'87, v.4-5, CH, Jun'88) covers everything--films, directors, actors, writers, and production artists--with generous, measured, scholarly

entries and lavish illustrations. However, it looms large and heavy, unlike the handy one-volume work by Thomson. Arguably, Thomson's work, for its scope, is the most fun, the most convenient, and the most engaging title. All libraries supporting people interested in film should buy it. It will get lots of use and provide very good value for the money. Summing Up: Highly recommended. Lower-level undergraduates and above; general readers. General Readers; Lower-division Undergraduates; Upper-division Undergraduates; Graduate Students; Researchers/Faculty; Professionals/Practitioners. Reviewed by C. Hendershott.

This autobiography *Struck Down, but Not Destroyed* is a vintage narrative of a struggling African American man who is committed to make something out of himself -- without blaming America for his problems along the way. This is a story of a hard working, courageous man of faith who persisted, at

times against great odds, to affirm that even life in the rural South or the Northern ghetto can have integrity. This is an unpretentious attempt to celebrate small victories for those who are often in this world considered the least of these. These many unheralded stalwarts of faith have made solid contributions; and yet have survived numerous close calls! The sixteen chapters with helpful descriptive captions unfold in the chronological sequence of Brother McCasters life events against the background, doubts, and scares of his extended family and others associated with him. One cannot miss Reverend McCasters uncanny and profound sense of joy as it resounds throughout

this exceptional testimony about the rewards for those who persist in the faith of our humble yet most inspiring forebears.
