En las últimas décadas, los problemas de acoso y amenazas entre escolares están adquiriendo importantes dimensiones en todas las sociedades y, por ello, son motivo de gran preocupación para el profesorado, las familias y para un buen número de niños y niñas. Los estudios más divulgados sobre el tema revelan que en este tipo de conductas están implicados más del quince por ciento de los escolares

de primaria y secundaria, como agresores o como víctimas. Dan OLWEUS, uno de los principales especialistas del mundo en esta cuestión, analiza, con un lenguaje claro y directo, las causas de estas conductas y los métodos eficaces para contrarrestarlas y prevenirlas. Presenta además un programa de intervención, seriamente evaluado y puesto en práctica en numerosos colegios, que es eficaz para hacer frente a la mayoría de los comportamientos denominados antisociales (vandalismo, hurtos, alcoholismo e incluso absentismo escolar). Esta obra ofrece consejos prácticos a docentes y familiares e incluye una valiosa guía para ayudarles a descubrir si un niño

o niña sufre, o está infligiendo, agresiones e intimidaciones.

El fin último de este trabajo ha sido recuperar los nombres de las mujeres pintoras españolas del último tercio del siglo XIX tratando de demostrar su participación activa en la historia. Se ha tratado de ofrecer una visión general de la mujer y el arte a lo largo de la historia no habiéndose estudiado este tema hasta el momento en España. Tras el análisis general de la mujer como *siatagma* inserto en el discurso social a propósito de la realidad española se ofrece la imagen de la mujer como la veían los ideales femeninos- la educación de la mujer- que tipo de *trastrucción* se le daba para llevarla a esa imagen- y que educación artística recibía. Por otro lado se estudia lo

que se enseñaba a esas artistas e integrar toda la información recogida en el siglo pues solo a través de esa integración se pueden llegar a conocer estudiando su problemática su participación en las exposiciones su diletantismo o profesionalidad lo que pintaban y como lo pintaban la critica y la visión de sus contemporáneos de este modo se puede conocer el papel de la pintora en el arte. 33 Practical Tips for Public Speaking
Harper Collins

Preached at Enfield, Connecticut on July 8, 1741, this is perhaps the greatest sermon ever preached in America—and is certainly among the most well known. Owing to its forthright dealing with God’s wrath and His intense hatred of sin and the sinner, it is also one of the most controversial. Indeed, for more than three-quarters of the sermon Edwards lays down a relentless stream of the most vivid and horrifying descriptions of the danger facing unregenerate men. While it is difficult to read such graphic language, there is abundant hope in the sermon’s conclusion. Edwards puts it this way, “And now you

have an extraordinary opportunity, a day wherein Christ has thrown the door of mercy wide open and stands calling and crying with a loud voice to poor sinners.” While those who would rather ignore God’s justice in favor of His mercy condemn Edwards and his sermon, those who were present and actually heard him preach that day reacted in a decidedly different manner. According to the diary of Reverend Stephen Williams who attended the sermon, “Before the sermon was done there was a great moaning and crying through the whole House, ‘what shall I do to be saved; oh, I am going to hell, etc.’” The diary goes on to indicate that Edwards had to interrupt his sermon and come down to minister to those who were under such awful conviction. And so, in spite of what the scoffers might think or say, “the amazing and astonishing power of God” was manifested among the people that day—with many falling not into the hands of an angry God, but into the arms of a mighty Savior.
