This book teaches non-classical or pop-style singers how to pronounce lyrics in American English. Its primary audience is singers with English as a second language, but all singers of pop music, and indeed anyone wishing to improve their vocal technique, can benefit from

this book. Through the use of the International Phonetic Alphabet, which assigns a specific symbol to each consonant and vowel sound, singers can immediately produce American sounds devoid of any local accents. Each sound is taught through a list of several practice words, photographs of mouth positions, and examples on the accompanying CD.

Since the 1930s and '40s, jazz has stood tall in American popular music, drawing into its embrace not only great horn players, percussionists, guitarists,

bassists, and pianists, but also some of the greatest singers in America's musical history. Jazz has laid the groundwork for important innovations in modern singing, opening up entirely new ways of delivering songs through what would eventually become jazz standards—songs that formed the basis of the American Songbook. In *So You Want to Sing Jazz*, singer and professor of voice Jan Shapiro gives a guided tour through the art and science of the jazz vocal style. Throughout, Shapiro hones in on what makes jazz singing distinctive, suggesting along the way how other types of singers can make use of jazz. She looks at such key matters in jazz singing as the role of improvisation, the place of specific singers who

influenced and even defined vocal jazz as we know it today, and the unique way in which jazz incorporates vibrato, conversational delivery, rhythmic phrasing, and melodic embellishment and improvisation. The book includes guest-authored chapters by singing voice researchers Dr. Scott McCoy and Dr. Wendy LeBorgne. In *So You Want to Sing Jazz*, singers and voice teachers finally have the go-to resource they need for singing vocal jazz. The *So You Want to Sing* series is produced in partnership with the National Association of Teachers of Singing. Like all books in the series, *So You Want to Sing Jazz* features online supplemental material on the NATS website.
