Our Political System Penguin UK

Focusing on politics and society in India, this book explores new areas enmeshed in the complex social, economic and political processes in the country. Linking the structural characteristics with the broader sociological context, the book emphasizes the strong influence of sociological issues on politics, such as social milieu shaping and the articulation of the political in day-to-day events. Political events are

connected with the ever-changing social, economic and political processes in order to provide an analytical framework to explain 'peculiarities' of Indian politics. Bidyut Chakrabarty argues that three major ideological influences of colonialism, nationalism and democracy have provided the foundational values of Indian politics. Structured thematically and chronologically, this work is a useful resource for students of political science, sociology and South Asian studies.

'Well written, solidly researched and cogently argued' --Shashi Tharoor
 'Bhanu has ably argued the case' -- Kuldip Nayar
 'This timely book... looks at the many advantages of the presidential system.' --Shanta Kumar
 At one time or another, Dr Ambedkar, Mahatma Gandhi, M.A. Jinnah, Sardar Patel and many other top leaders strongly opposed India's adoption of the parliamentary system. History has proven them right. Given its diversity, size, and communal and community divisions, the country needed a truly federal setup -- not the centralized unitary control that the parliamentary system offers. Why India Needs the Presidential System tells the dramatic story of how India's current system of government evolved, how it is at the root of the problems India faces.

The result of years of meticulous research, this book makes a passionate plea for a radical rethink of India's future as a nation. Why India Needs the Presidential System is not just an expose of what is wrong, but a serious effort at offering a possible solution.
