Victorian Charted Patterns for Motifs & Borders University of Iceland Press
One of the earliest known modelbuchs, Domenico da Sera's second book of woodcut patterns titled *Libbretto Nouellamete* was published on April 12, 1532 in Lyon, France. These "improved" original designs were intended for the use of embroiderers and lacemakers, and the motifs and borders have appeared ever since in antique needlework projects ranging from church lace to schoolgirl samplers. The timeless designs presented here include intricately knotted and lush floral borders as well as overall repeating

patterns. The alphabet pattern plate on page 28 would make a charming sampler on its own. Classic motifs, borders and geometrics are easily adapted by modern needleworkers. Designs charted on graph paper are a universal language which can be translated into needlepoint, counted cross stitch, filet crochet and beadwork. *Mr X Stitch Guide to Cross Stitch* C&T Publishing Inc
A unique volume that offers over 300 lovely designs from Book of Kells, Tara Brooch, and many other authentic Celtic sources. Meticulously researched and annotated, The Second Carolingian Modelbook is a pattern collection for stitchers fascinated by the counted embroidery styles of the 1500s and 1600s. Its 75 plates of over 250 individual band, border, strapwork, and field designs are clearly depicted for ease of working, and are accompanied by observations on pattern "families", full source documentation, and descriptions of some of the many techniques that were used to stitch them. It contains linear designs appropriate for double-running or back stitch embroidery; and block unit designs can be used for long armed cross stitch and darned whitework. Block unit designs can also be used in modern context for cross stitch, filet crochet, and knitting. Designs appropriate for reserva

or voided work (the ancestor of modern Assisi stitching) are also included. Please note that this is a reference work for stitchers creating their own works for private use, and not a book of fully composed projects and the step by step directions for creating them.

Victorian Berlin Work Pattern Plates C&T Publishing Inc

These delicate, softly shaded designs are timeless and very likely more modern than you'd expect from Victorian needlework. Most are adapted from traditional European folk needlework patterns used for clothing and home decoration. This collection is reproduced from German textile designer Friedrich Fischbach's work titled "Stickerei-Muster" (embroidery patterns) published around 1890. The patterns were printed

in full color on small cards gathered into portfolios. The original cards measured only a few inches and the charts have been enlarged for easier use. Many of these charts use whole stitches, making them suitable for both needlepoint and cross stitch. Others are worked almost entirely in backstitches to produce airy, ornate patterns of Blackwork-like filigree. Designs charted on graph paper are a universal language, with each square on the pattern representing a single stitch. Basic counted thread stitches begin on page 50, and a page of graph paper is included as an aid to help you create your own projects. These charts are reproduced from the original antiques, and some signs of age and wear will be visible. Antique printing processes were not as clear and accurate as the charts

modern stitchers are accustomed to using, and these are not recommended for novice stitchers. No actual projects are offered, these charts are a collection of borders and motifs that can be used for your own creations. 8-1/2 by 11 inch softcover with 56 pages; 47 pages of full color charts.

Advances in printing technology during the 16th century ushered in an incredible array of printed needlework patterns. This collection is reproduced from Italian master Dominique de Séra's work titled "Le Livre de Lingerie" published in 1584 on the "noble and elegant art of lacemaking." This book is Volume 3 in a series of 3, with 23 pages of intricately charted designs. Classic motifs, borders and alphabets such as the ones presented here are easily adapted by modern needleworkers. Designs charted on graph paper are a universal language which can be translated into needlepoint, counted cross stitch, filet crochet and beadwork, with each square on the pattern representing a single stitch. A page of plain graph paper has been added at the

end of the book to aid you in adapting these designs to your own creations.

Modern Charted Embroidery Patterns

Three Rivers Press

This book includes antique charted patterns for 84 borders, 43 motifs, 14 complete alphabets, 9 sets of numbers and 6 overall repeating patterns. It's hard to believe these timeless charts are over 100 years old. They represent a moment in time when tastes began to shift from elaborate, richly-colored Victorian styles to a simpler look. The Art Deco covers of these diminutive booklets- in this instance, 2-3/4" by 4-1/2"- scarcely hint at the contents inside. The patterns in this book are part of a series published by H. K. Berlin SW in Germany between 1890-1920. Designs charted on graph paper are a universal language which

can be translated into needlepoint, counted cross stitch and beadwork, with each square on the pattern representing a single stitch.

Wild Animals Charted Designs David & Charles

Monograms have always been a fashionable way for embroiderers to personalize fashion and home decor. In contrast to the subtle white-on-white embroidery often found on bed linens and handkerchiefs, the exuberantly colorful designs that follow are more modern than you might expect from Victorian needlework. This collection is reproduced from German textile designer Friedrich Fischbach's work titled "Bunt-Stickerei-Vorlagen" (colorful embroidery patterns) published around 1870. These individual letters, entwined

monograms, motifs and borders are a remarkable resource for modern needleworkers to use on their own projects. Designs charted on graph paper are a universal language which can be translated into needlepoint and counted cross stitch, with each square on the pattern representing a single stitch. Author's Note: Please be aware that older alphabets may not contain all letters. For example, "I" and "J" were often considered interchangeable, and many alphabets contain only one or the other, not both. The elaborate diagonal monogram series ("L" and "M" are shown on the front cover) does not include "J", "X" or "Y".

Colorful and contemporary embroidery

for the modern stitcher. There's something magical about embroidery—some floss, some stitches, some time, and suddenly a plain piece of material is transformed into a picture, a pattern, or a piece of geometric art. Embroidery today is moving away from the traditional to the modern, with motifs including everything from cacti to crystals, simple white stitching on colored cloth, decorative stitches on denim, and mandala patterns as wall art. Laura Strutt has designed 35 modern makes taking you from the simplest of stitches to more sophisticated techniques. Each make has full step-by-step instructions and there are colored charts where needed for you to recreate the look exactly—but of course you can always choose your own colors if you

prefer. With tips on everything from finishing pieces to color theory, and a techniques section covering all the stitches you will need to know, you can hand-embroider any of these projects with confidence.

45 pages of charted designs from the mid-1900s will delight modern-day needlepointers and cross stitchers with dozens of floral designs, animals, alphabets and geometric patterns. Synthetic dyes developed in the 1830s led to brilliantly colored wool yarns, and their popularity influenced a style of needlepoint which became known as "Berlin Work" or "Berlin wool work." Wool yarns were most commonly used for canvas embroidery, but accents of silk or cotton thread, metallic thread and even beads were popular as well. Small booklets offered patterns catering to the Victorian love of nature-inspired motifs, repeating geometric patterns and monograms. Each pattern plate shown in this book measures about 3" by 4." Because the patterns were

heavily used, very often only the individual pages survived but this booklet is still an intact large folded sheet, although the covers are missing. This collection was printed in Germany during the mid-19th century by H. K. Berlin S.W. Charted designs are a universal language with each square on the graph paper representing a single completed stitch, so these are easily adapted by modern needleworkers for both needlepoint and counted cross stitch. Antique "Berlin Work" was most often worked in Continental (Tent) or Half Cross stitches on evenweave canvas, although full Cross stitches were sometimes used both on canvas and linen fabric.

Celtic Charted Designs David and Charles

These pattern plates are from a series of 19th century German cards, or small pattern plates; all the motifs are in the classic "Berlin Work" style of floral wreaths and sprays, geometric borders and overall repeating patterns, quaint village buildings and other motifs. I found the first few cards many years ago

in a box of miscellaneous sewing goods- long before I even knew exactly what they were- and eventually more from an Austrian manuscript dealer. They are presented slightly enlarged for easier reading but otherwise unaltered, with the marks of age and prior use still in evidence. Small patterns like these offer endless possibilities for today's needleworkers, from arranging motifs and borders into designs to selecting your own color combinations. Using brilliantly colored seed beads on canvas or linen, either as accents or to entirely replace the thread colors, is another time-honored tradition for these patterns and one that manages to look both antique and modern at the same time. *Anne Orr's Charted Designs* Courier Corporation

From the OG of the Subversive Cross Stitch movement (and brand of the same name) comes Super Subversive Cross Stitch. Featuring 50 easy-to-make designs—both brand-new patterns and fan favorites—stitched together with trademark wit. Don't freak out. Don't make this about you. May your life be as amazing as you pretend it is on Facebook. What fresh hell is this? Not today, Satan. Super Subversive Cross Stitch is here to provide crafters with the snarky inspirations they love to stitch.

The book features 50 patterns—23 brand-new designs and 27 fan favorites—along with easy-to-follow instructions for the beginner and fonts and designs for adventurous crafters looking to customize their creations. It recasts a traditional, dare we say "sentimental," craft into a modern, relevant art form. It's the latest offering in the Subversive Cross Stitch brand, beloved by legions of DIYers. Less messy than graffiti, Super Subversive Cross Stitch allows crafters to adorn walls with political pith and irreverent twists on classic quotes ("I think, therefore I drink," "Let the good times be gin"). "This book reminds me that I'm not alone in being crafty and swearsy all at the same time. Pass the gin." —Jenny Lawson, New York Times–bestselling

author of *Furiously Happy, Let's Pretend This Never Happened*, and *Broken* "Julie is the true OG of the subversive cross-stitch movement. Modern cross-stitch design would not be what it is today without her. She is a positive and

supportive force in the cross-stitch community, providing mentorship to other designers and welcoming new stitchers into the hobby. I am so excited about her new book!" —Stephanie Rohr, author of *Feminist Cross-Stitch*
