Qucik Review Series for BDS 1st Year Jaypee Brothers Medical Publishers

This text covers 2 important areas in one book -- general medicine and surgery and oral medicine - - and shows the inter-relations between the two. Cross-referencing aids in the understanding of the relevance of general medicine to dentistry. Includes high-quality color photographs throughout.

Inderbir Singh's Textbook of Human Histology Jaypee Brothers,Medical Publishers Pvt. Limited
This is the first textbook on pattern recognition to present the Bayesian viewpoint. The book presents approximate inference algorithms that permit fast approximate answers in situations where exact answers are not feasible. It uses graphical models to describe probability distributions

when no other books apply graphical models to machine learning. No previous knowledge of pattern recognition or machine learning concepts is assumed. Familiarity with multivariate calculus and basic linear algebra is required, and some experience in the use of probabilities would be helpful though not essential as the book includes a self-contained introduction to basic probability theory.

DiFiore's Atlas of Histology with Functional Correlations Elsevier España
Fully revised, new edition presenting undergraduates with latest information in human histology. Includes colour atlas of more than 80 slides, histological plates and a new section on light microbiology. Previous edition published in 2014.
