Her letters are

informative, affectionate, and delightful to read. These letters constitute one of the finest pre-Civil War collections about military life." Dr. Leo E. Oliva, Santa Fe Trail Historian Catherine "Katie" Bowen (nee Cary) was born and raised in Houlton, Maine, where her family ran a lumber and mercantile business. After a whirlwind courtship, Katie married a dashing young West Point graduate, Second Lieutenant Isaac Bowen, who left soon after the wedding for the Mexican

War. When he returned safely from the war, Katie and Isaac embarked on the adventure of a lifetime: enjoying tea and discussing philosophy with Ralph Waldo Emerson; drinking a soldier's cracker toddy and smoking cigars with General Zachary Taylor, Colonel Jefferson Davis, and Second Lieutenant Ulysses S. Grant, one of Isaac's West Point classmates; chatting fireside with Susan Shelby Magoffin, another well-known Santa Fe Trail traveler; sipping

champagne at the White House with family friend, President Millard Fillmore; hearing crucial military intelligence from frontier scout, Kit Carson; and, being entertained with tall tales about Mississippi River life by steamboat Cub Pilot, Samuel Langhorne Clemens, later known as Mark Twain. The Bowen Love Letters reveal intimate details about young lives full of passion and adventure - lives that ended tragically in 1858 when Katie and Isaac were still in their early thirties.

Is it possible to work with purpose, stay in love, and raise a healthy family--all at the same time? Popular

podcast hosts and founders of Plywood People Jeff and André Shinabarger share proven research, insightful practices, and stories from 100 working couples to cast new vision for the modern family. We know the harm that comes from prioritizing work or family at the cost of the other, so what is the secret to living a fully engaged and balanced life in both work and family? Hosts of the Love or Work podcast, Jeff and André Shinabarger posed this question to 100 working couples--from

professional athletes and artists, entrepreneurs and CEOs, to fashion icons and church leaders. They partnered with the Barna Group for a yearlong nationwide research project to find the answer and now, along with their own unique story of juggling demanding careers and a growing family, Jeff and André offer their findings: a new vision for the modern family and a path forward for the socially-conscious working partnership. In this one-of-a-kind book, they address head-on the

complex tensions in career fulfillment, working parent guilt, timing, and marital and spiritual health. With proven research, personal experience, and applicable insights, Jeff and André reveal the practices that will help you cultivate your own, individual, purpose-fueled family. More than a formula, Jeff and André found that work-life balance is about embracing where you're at in the journey, pursuing your passion with your family, and living the

adventure of it all together.

Written with all the scathing dark humor that is a hallmark of BoJack Horseman, Raphael Bob-Waksberg delivers a fabulously off-beat collection of short stories about love—the best and worst thing in the universe. Featuring: • A young engaged couple forced to deal with interfering relatives dictating the appropriate number of ritual goat sacrifices for their

wedding. • A pair of lonely commuters who ride the subway in silence, forever, eternally failing to make that longed-for contact. • A struggling employee at a theme park of U.S. presidents who discovers that love can't be genetically modified.  A New York Times bestseller and enduring classic, All About Love is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. All About Love reveals what causes a polarized society, and

how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive

new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and

healing for individuals and for a nation. The Utne Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

A Time Magazine Best YA Book of All Time From Stonewall and Lambda Award-winning author Kacen Callender comes a

revelatory YA novel about a transgender teen grappling with identity and self-discovery while falling in love for the first time. Felix Love has never been in love—and, yes, he's painfully aware of the irony. He desperately wants to know what it's like and why it seems so easy for everyone but him to find someone. What's worse is that, even though he is proud of his identity, Felix also secretly fears that he's one marginalization too many—Black, queer, and transgender—to ever get

his own happily-ever-after. When an anonymous student begins sending him transphobic messages—after publicly posting Felix’s deadname alongside images of him before he transitioned—Felix comes up with a plan for revenge. What he didn’t count on: his catfish scenario landing him in a quasi-love triangle.... But as he navigates his complicated feelings, Felix begins a journey of questioning and self-discovery that helps

redefine his most important relationship: how he feels about himself. Felix Ever After is an honest and layered story about identity, falling in love, and recognizing the love you deserve. "Felix is attending an ultracompetitive arts summer program to have a better shot at a full scholarship to Brown when someone posts Felix’s dead name beside photos of him, pre-transition, in the school’s lobby. Felix’s plot to get revenge throws him onto

the path of love and self-discovery." (Publishers Weekly, "An Anti-Racist Children's and YA Reading List")

As the daughter of a drug dealer, Wavy knows not to trust people, not even her own parents. It's safer to

keep her mouth shut and stay out of sight. Struggling to raise her little brother, Donal, eight-year-old Wavy is the only responsible adult around. Obsessed with the constellations, she finds peace in the starry night sky above the fields behind her house, until one night her star gazing causes an accident. After witnessing his motorcycle wreck, she forms an unusual friendship with one of her father's thugs, Kellen, a tattooed ex-con with a heart of gold. By the time Wavy is a

A systematic investigation
of growth in nature and
society, from tiny
organisms to the
trajectories of empires
and civilizations. Growth
has been both an
unspoken and an explicit
aim of our individual and
collective striving. It
governs the lives of
microorganisms and
galaxies; it shapes the
capabilities of our

extraordinarily large
brains and the fortunes of
our economies. Growth is
manifested in annual
increments of continental
crust, a rising gross
domestic product, a
child's growth chart, the
spread of cancerous cells.
In this magisterial book,
Vaclav Smil offers
systematic investigation
of growth in nature and
society, from tiny
organisms to the
trajectories of empires
and civilizations. Smil
takes readers from
bacterial invasions
through animal

metabolisms to megacities and the global economy. He begins with organisms whose mature sizes range from microscopic to enormous, looking at disease-causing microbes, the cultivation of staple crops, and human growth from infancy to adulthood. He examines the growth of energy conversions and man-made objects that

enable economic activities—developments that have been essential to civilization. Finally, he looks at growth in complex systems, beginning with the growth of human populations and proceeding to the growth of cities. He considers the challenges of tracing the growth of empires and civilizations, explaining that we can chart the growth of organisms

across individual and evolutionary time, but that the progress of societies and economies, not so linear, encompasses both decline and renewal. The trajectory of modern civilization, driven by competing imperatives of material growth and biospheric limits, Smil tells us, remains uncertain.
