Maps of Meaning Russian and East European Stud
The great Russian writer Aleksandr Solzhenitsyn (1918-2008) is widely recognized as one of the most

consequential human beings of the twentieth century. Through his writings and moral witness, he illumined the nature of totalitarianism and helped bring down an 'evil empire.' His courage and tenacity are acknowledged even by his fiercest critics. Yet the world-class novelist, historian, and philosopher (one uses the latter term in its capacious Russian sense) has largely been eclipsed by a caricature that has transformed a measured and self-critical patriot into a ferocious nationalist, a partisan of local self-government into a quasi-authoritarian, a man of faith and reason into a narrow-minded defender of Orthodoxy. The caricature, widely dispensed in the press, and too often taken for granted, gets in the way of a thoughtful and humane confrontation with the "other" Solzhenitsyn, the true Solzhenitsyn, who is a writer and thinker of the first rank and whose spirited defense of liberty is never divorced from moderation. It is to the recovery of this Solzhenitsyn that this book is dedicated. This book above all explores philosophical, political, and moral themes in Solzhenitsyn's two masterworks, *The Gulag Archipelago* and *The Red Wheel*, as

well as in his great European novel *In the First Circle*. We see Solzhenitsyn as analyst of revolution, defender of the moral law, phenomenologist of ideological despotism, and advocate of "resisting evil with force." Other chapters carefully explore Solzhenitsyn's conception of patriotism, his dissection of ideological mendacity, and his controversial, but thoughtful and humane discussion of the "Jewish Question" in the Russian - and Soviet twentieth century. Some of Solzhenitsyn's later writings, such as the "binary tales" that he wrote in the 1990s, are subject to critically appreciative analysis. And a long final chapter comments on Solzhenitsyn's July 2007 *Der Spiegel* interview, his last word to Russia and the West. He is revealed to be a man of faith and freedom, a patriot but not a nationalist, and a principled advocate of self-government for Russia and the West. A final Appendix reproduces the beautiful Introduction ("The Gift of Incarnation") that the author's widow, Natalia Solzhenitsyn, wrote to the 2009 Russian abridgment of *The Gulag Archipelago*, a work that is now taught in Russian high schools.

Fahrenheit 451 HarperCollins
ONE DAY IN THE LIFE OF IVAN DENISOVICH is a novel written by Aleksandr Solzhenitsyn, first published in November 1962 in the Soviet literary magazine *Novy Mir* (New World). The story is set in a Soviet labor camp in the 1950s, and describes a single day of an ordinary prisoner, Ivan Denisovich Shukhov. Its publication was an extraordinary event in Soviet literary history—never before had an account of Stalinist repression been openly distributed. The editor of *Novy Mir*, Aleksandr Tvardovsky, wrote a short introduction for the issue, titled "Instead of a Foreword," to prepare the journal's readers for what they were about to experience.

 "BEST NONFICTION BOOK OF THE 20TH CENTURY." —Time "It is impossible to name a book that had a greater effect on the political and moral consciousness of the late twentieth century." —David Remnick, *The New Yorker* The Nobel Prize winner's towering masterpiece of world literature, the searing record of four decades of terror and oppression, in one abridged volume (authorized by the

author). Features a new foreword by Anne Applebaum. Drawing on his own experiences before, during and after his eleven years of incarceration and exile, on evidence provided by more than 200 fellow prisoners, and on Soviet archives, Solzhenitsyn reveals with torrential narrative and dramatic power the entire apparatus of Soviet repression, the state within the state that once ruled all-powerfully with its creation by Lenin in 1918. Through truly Shakespearean portraits of its victims—this man, that woman, that child—we encounter the secret police operations, the labor camps and prisons, the uprooting or extermination of whole populations, the “welcome” that awaited Russian soldiers who had been German prisoners of war. Yet we also witness astounding moral courage, the incorruptibility with which the occasional individual or a few scattered groups, all defenseless, endured brutality and degradation. And Solzhenitsyn’s genius has transmuted this grisly indictment into a literary miracle. “The greatest and most powerful single indictment of a political regime ever leveled in modern times.” —George F. Kennan “Solzhenitsyn’s

masterpiece. . . . The Gulag Archipelago helped create the world we live in today.” —Anne Applebaum, Pulitzer Prize-winning author of *Gulag: A History*, from the foreword

Drawing on his own incarceration and exile, as well as on evidence from more than 200 fellow prisoners and Soviet archives, Aleksandr Solzhenitsyn reveals the entire apparatus of Soviet repression. Through portraits of its victims, the book reveals secret police operations, labour camps, and the uprooting or extermination of whole populations.

Illness and Inhumanity in Stalin's Gulag Cornell University Press

The month of November 1916 in Russia was outwardly unmarked by seismic events, but beneath the surface, society seethed fiercely. In Petrograd, luxury-store windows are still brightly lit; the Duma debates the monarchy, the course of war,

and clashing paths to reform; the workers in the miserable munitions factories veer increasingly toward sedition. At the front all is stalemate except for sudden death's capricious visits, while in the countryside sullen anxiety among hard-pressed farmers is rapidly replacing patriotism. In Zurich, Lenin, with the smallest of all revolutionary groups, plots his sinister logistical miracle. With masterly and moving empathy, through the eyes of both historical and fictional protagonists, Solzhenitsyn unforgettably transports us to that time and place—the last of pre-Soviet Russia. Translated by H.T. Willetts. November 1916 is the second volume in Solzhenitsyn's multi-part work, the Red Wheel, following August 1914. The final volumes will deal with March and April of 1917. Each volume concentrates on a historical turning point, or "knot," as the wheel rolls on inexorably toward revolution.

The thrilling cold war masterwork by the Nobel prize winner, published in full for the first time. Moscow, Christmas Eve, 1949. The Soviet secret police intercept a call made to the American embassy by a

Russian diplomat who promises to deliver secrets about the nascent Soviet Atomic Bomb program. On that same day, a brilliant mathematician is locked away inside a Moscow prison that houses the country's brightest minds. He and his fellow prisoners are charged with using their abilities to sleuth out the caller's identity, and they must choose whether to aid Joseph Stalin's repressive state—or refuse and accept transfer to the Siberian Gulag camps . . . and almost certain death. First written between 1955 and 1958, *In the First Circle* is Solzhenitsyn's fiction masterpiece. In order to pass through Soviet censors, many essential scenes—including nine full chapters—were cut or altered before it was published in a hastily translated English edition in 1968. Now with the help of the author's most trusted translator, Harry T. Willetts, here for the first time is the complete, definitive English edition of Solzhenitsyn's powerful and magnificent classic.

In *March 1917*, Book 3 the forces of revolutionary disintegration spread out from Petrograd all the way to the front lines of World War I, presaging Russia's collapse. One of the masterpieces of world literature, *The Red Wheel* is Nobel prize-winner Aleksandr Solzhenitsyn's multivolume epic work about the Russian Revolution told in the form of a historical

novel. *March 1917*—the third node—tells the story, day by day, of the Russian Revolution itself. Until recently, the final two nodes have been unavailable in English. The publication of Book 1 of *March 1917* (in 2017) and Book 2 (in 2019) has begun to rectify this situation. The action of Book 3 (out of four) is set during *March 16–22, 1917*. In Book 3, the Romanov dynasty ends and the revolution starts to roll out from Petrograd toward Moscow and the Russian provinces. The dethroned Emperor Nikolai II makes his farewell to the Army and is kept under guard with his family. In Petrograd, the Provisional Government and the Soviet of Workers' and Soldiers' Deputies continue to exercise power in parallel. The war hero Lavr Kornilov is appointed military chief of Petrograd. But the Soviet's "Order No. 1" reaches every soldier, undermining the officer corps and shaking the Army to its foundations. Many officers, including the head of the Baltic Fleet, the progressive Admiral Nepenin, are murdered. Black Sea Fleet Admiral Kolchak holds the revolution at bay; meanwhile, Grand Duke Nikolai Nikolaevich, the emperor's uncle, makes his way to military headquarters, naïvely

thinking he will be allowed to take the Supreme Command.

Highly effective thinking is an art that engineers and scientists can be taught to develop. By presenting actual experiences and analyzing them as they are described, the author conveys the developmental thought processes employed and shows a style of thinking that leads to successful results is something that can be learned. Along with spectacular successes, the author also conveys how failures contributed to shaping the thought processes. Provides the reader with a style of thinking that will enhance a person's ability to function as a problem-solver of complex technical issues. Consists of a

collection of stories about the author's participation in significant discoveries, relating how those discoveries came about and, most importantly, provides analysis about the thought processes and reasoning that took place as the author and his associates progressed through engineering problems.
