NEW YORK TIMES  
BESTSELLER • The first

published collection of photographs by the icon of street style, bringing together favorites published in The New York Times alongside never-before-seen work across five decades. "A dazzling kaleidoscope from the gaze of an artist who saw beauty at every turn."—André Leon Talley  
Bill Cunningham's photography captured the evolution of style, of trends, and of the everyday, both in New York City and in Paris. But his work also shows that street style is not only about fashion; it's about the people and the changing culture. These photographs—many never before seen, others

having originally appeared in The New York Times and elsewhere—move from decade to decade, beginning in the 1970s and continuing until Cunningham's death in 2016. Here you'll find Cunningham's distinctive chronicling of the 1980s transit strike, the rise of 1990s casual Fridays, the sadness that fell over the city following 9/11, Inauguration Day 2009, the onset of selfies, and many other significant moments. This enduring portfolio is enriched by essays that provide a revealing portrait of Cunningham and a few of his many fascinations and influences, contributed by

Cathy Horyn, Tiina Loite, Vanessa Friedman, Ruth La Ferla, Guy Trebay, Penelope Green, Jacob Bernstein, and a much favored subject, Anna Wintour. More than anything, *On the Street* is a timeless representation of Cunningham's commitment to capturing the here and now. "An absolute delight."—People *Wild verschlossen* W. W. Norton

It takes enviable skill and dedication to achieve mastery in the arts. Yet even more remarkable is the artist who widens his scope to venture beyond his already widely acclaimed signature style. Few would dare to even consider such a risk... However, in "Senza Parole," Marc Lagrange is audacious enough to make that thrilling leap as he boldly showcases a broad array of distinctive approaches--everything from starkly straight nude studies--in the honorable tradition of Helmut Newton--to Lagrange's more typically intricate and exotic compositions. The photographer's devoted followers will still find the dream-like eroticism he is known for, yet, in this work, each photograph is one of a kind, with Lagrange's hallmark of technical

perfection. As one would expect from Lagrange, each tableau is carefully configured with not a single detail left to chance.

In good times and bad, our best friends are there for support, therapy, and unconditional love. Especially now--where would we be without our dogs? Although the so-called modernists of Palm Springs embrace the serenity of life in post-WWII America, the sometimes-harsh realities of contemporary life are impossible to ignore. These mid-twentieth-century reenactors are often transplants, enjoying the Palm Springs lifestyle with their dogs and friends as their chosen family. The beautiful climate, wide-open spaces, and clean decor make the perfect home for their desert pets, which are as lovingly groomed and cared for as their surroundings. In these photographs, Nancy

Baron puts these four-legged Palm Springs residents into the spotlight, where they add the same warmth and life to the image as they do to their homes.

This classic work of analog photojournalism—focusing

on the idiosyncratic denizens of an iconic bar in the red-light district of Hamburg, Germany—is now available in a gorgeous new edition that features a tribute by musician and actor Tom Waits. Photographer Anders Petersen was hanging out at a dive bar on the Reeperbahn in Hamburg in 1968 when someone grabbed his camera from the table where he was sitting and started taking pictures. Petersen used the opportunity to photograph the culprit—and the rest of the bar's motley crew of patrons. The resulting project is one of the most revered photobooks of all time, a celebration of a gritty city at the tail end of the sixties, and the cornerstone of Petersen's storied career. The images have become classics of their genre; Tom Waits used one for the cover of his legendary album *Rain Dogs*. Their candidness and authenticity remain as eloquent today as when they were first published in 1978. This sumptuously produced reissue features a new foreword by Waits, and is certain to find a new audience, who will appreciate the stunning analog photography and its elegiac collective

portrait of the fringes of society.

With amazing low-light capabilities, incredible definition, intelligent autofocus and a host of other features, digital cameras have now become so powerful that they have left their users behind. Most photographers can take competent shots in a range of conditions, or fix imperfect exposures in Photoshop or Lightroom, but very few have the skill to push their cameras to the limit and capture the perfect shot, under all conditions, with no post-processing required. In

Camera is the perfect way to take your photography to that level; to master your camera, understand light, exposure and composition, and make amazing photographs, whatever your camera, without cheating after the event. One hundred of Gordon's beautiful photos are given with his own expert commentary; full settings and camera details are included, and a host of tips and tricks let photographers of any level learn something from every example. The shots are taken with a wide range of cameras, and the emphasis is on getting results by improving your own skills, not wasting money on expensive equipment.

An ironic take on the Case Study House Program--initiated in 1945 by Arts and Architecture magazine in an effort to develop low-priced single-family homes by architects such as Richard Neutra and Charles and Ray Eames--German photographer Peter Bialobrzeski's Case Study Homes was shot at the Baseco compound, a squatter camp near the Port of Manila, which is home to an estimated 70,000 people. As

Bialobrzkeski was considering the series--startling images of provisional structures fashioned from slats, cardboard, corrugated metal and other cast-off materials and refuse--Lehman Brothers Bank collapsed and the media declared a global economic crisis. These recent events lend resonance to Bialobrzkeski's images, which recall the photographs of impoverished rural Americans commissioned by the Farm Security Administration in the 1930s. Conceived as a sketchbook for a larger project, the images evidence the human will to survive and a profound resourcefulness.
