Why should the work of the ancient and the medievals, so far as it relates to nature, still be of interest and an inspiration to us now? The contributions to this enlightening volume explore and uncover contemporary scholarship's debt to the classical and medieval past. Thinking About the Environment synthesizes religious thought and environmental theory to trace a trajectory from Mesopotamian mythology

and classical and Hellenistic Greek, through classical Latin writers, to medieval Christian views of the natural world and our relationship with it. The work also offers medieval Arabic and Jewish views on humanity's inseparability from nature. The volume concludes with a study of the breakdown between science and value in contemporary ecological thought. Thinking About the Environment will be an invaluable source book for those seeking to address environmental ethics from

a historical perspective.

Vasto affresco degli eventi che si svilupparono nell'Italia meridionale tra il 1861 e il 1862, l'opera rimane la insuperata saga del brigantaggio. Nata come romanzo ideologicamente orientato a far valere le ragioni del Sud contro un Nord invasore e conquistatore, L'eredità della Priora, per quel miracolo che è solo

della poesia, diventa inevitabilmente romanzo dell'unità nazionale.

Il giovane genovese Giovanni Giustiniani, figlio illegittimo e omicida, fugge nel Nuovo Mondo per scampare alla legge. Sotto il comando di Hernan Cortés parteciperà

alla conquista dell'impero azteco. Una straordinaria avventura che ripercorre l'epopea dei conquistadores: la ricerca della leggendaria «città d'oro», l'insaziabile avidità e brama di potere dei bianchi che, pur affascinati dalle civiltà precolombiane, non esitano ad annegarle in un mare di sangue per la loro fame di ricchezza, ma anche l'indistruttibile legame dell'amicizia, che consente di restare umani anche in mezzo alla barbarie.

Go Southwest, Old Man,, a sort of personal remake of 'Go West, Young Man', the founding episteme of the American nineteenth century, conciliates these two souls (well, not to be pretentious, let's simply say two sides) that have actually always lived in harmony. This is a book generated by a quarter of a century spent

wandering around the canyons and deserts of Arizona, Colorado, Utah and, above all New Mexico, with a view to penetrating the by now universal legend of the West, approaching the cultures (English, Hispanic and native American), and mastering the literature. The slant is composite: melding the scholarly with the informative and the travel journal, and the writing is composite too, because the book speaks English and Italian. It talks about cinema (lots of John Ford) and about detective

stories, the most popular genre here, about visual arts and Latino folklore, about the legend of the West, the so-called 'Soul of the Southwest', and the kitsch style of Santa Fe. And it talks about (and with) some of the greatest writers that the Southwest has spawned: Rudolfo Anaya, Stanley Crawford, John Nichols and Hillerman. So what we have is a first-hand experience of the Southwest; where the ego is not entrenched within a precise disciplinary role but opens up - and

exposes itself - to the thrilling risk of the discovery that can renew it.
