NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab(tm) products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab products, you may also need a Course ID, which your instructor will provide. Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. For courses in Precalculus This package includes MyLab Math. Providing the rigor of solid mathematics with an engaging and friendly approach As teachers, Ratti and McWaters saw firsthand where their Precalculus and Calculus students struggled, where they needed help making connections, and what material they needed to be successful in calculus. They decided to partner and write this text with the primary goal of preparing students to be successful in calculus and future STEM courses. Their experience in the classroom shows in each chapter. The focus on conceptual development, real-life applications, and extensive exercises, encourages a deeper understanding of the mathematics. Precalculus: A Unit Circle Approach, 3rd Edition, includes thorough coverage of topics as preparation for calculus, including; trig identities, difference quotient, functional composition, decomposition and emphasizes graphing techniques/transformations. Personalize learning with MyLab Math MyLab(tm) Math is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. At University of South Florida, the author's school, student results improved when using this book with MyLab Math. Published results are available at Pearsonmylabandmastering.com on the Results page. For the new edition, MyLab Math continues to expand the comprehensive

auto-graded exercise options. The pre-existing exercises were carefully reviewed, vetted, and improved using aggregated student usage and performance data over time. In addition, MyLab Math includes new options to support conceptual learning, visualization, and student preparedness. 0134438876 / 9780134438870 Precalculus: A Unit Circle Approach plus MyLab Math with Pearson eText -- Access Card Package Package consists of: 0134433041 / 9780134433042 Precalculus: A Unit Circle Approach 0321431308 / 9780321431301 Pearson MyLab Math -- Glue-in Access Card 0321654064 / 9780321654069 Pearson MyLab Math Inside Star Sticker

Check with the seller before completing your purchase. "This course is ideal for accelerating students as an alternative to the traditional developmental math sequence and preparing them for a college-level statistics, liberal arts math, or STEM-prep course." "MyMathLab for Quantitative Reasoning" is part of a series of MyMathLab courses built to support the New Mathways Project developed by the Charles A. Dana Center. The New Mathways Project embodies the Dana Center's vision for a systemic approach to improving student success and completion through implementation of processes, strategies, and structures built around three mathematics pathways and a supporting student success course. "Quantitative Reasoning" develops quantitative literacy skills that will be meaningful in students' professional, civic, and personal lives. This course emphasizes using data to make good decisions, and its goal is for students to gain the mental habit of seeking patterns and order when confronted with unfamiliar contexts. The MyMathLab course designed for use with Quantitative Reasoning provides: Interactive content to help prepare students for active classroom time. In-Class Interactive Lessons to support students through an active classroom experience, accompanied by notebook PDFs. Homework assignments designed to assess conceptual understanding of important skills and concepts. Additional resources for instructors to help facilitate an interactive and engaging classroom. Built in MyMathLab Content developed by the Charles A. Dana Center at The University of Texas at Austin will be delivered through MyMathLab. MyMathLab is an online homework, tutorial, and assessment program that engages students and improves results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. "Introductory Algebra + MyLab Math With Pearson Etext - 18 Week Access Card Package" Pearson College Division. Personalize learning with MyLab Math. MyLab(tm) Math is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. The new edition continues to expand the

comprehensive auto-graded exercise options. In addition, MyLab Math includes new options designed to help students of all levels and majors to stay engaged and succeed in the course. Show students that our world is profoundly mathematical Bob Blitzer continues to inspire students with his engaging approach to mathematics, making this beloved series the #1 in the market year after year. Blitzer draws on his unique background in mathematics and behavioral science to present a wide range of vivid applications in real-life situations. With the new edition, Blitzer takes student engagement with the mathematical world to a whole new level drawing from applications across all fields as well as topics that are of interest to any college student (e.g., student loan debt, grade inflation, sleep hours of college students). The new edition also aims to help more students to succeed in the course with just-in-time support in the text--such as Brief Review of prerequisite topics, Achieving Success boxes, and Retain the Concepts exercises--as well as support within MyLab(tm) Math such as new concept-level videos, assignable tools to enhance visualization, and more. MyLab Math Standalone Access Card to accompany Blitzer, College Algebra with Integrated Review, 7/e This item is an access card for MyLab(tm) Math. This physical access card includes an access code for your MyLab Math course. In order to access the online course you will also need a CourseID, provided by your instructor. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Intermediate Algebra by Trigsted, Gallaher, and Bodden is the first online, completely "clickable" Intermediate Algebra text to take full advantage of MyMathLab's features and benefits. Kirk Trigsted saw marked improvements in student learning when he started teaching with MyMathLab, but he noticed that most students started their assignments by going directly to the MyMathLab homework exercises without consulting their textbook. This inspired Kirk to write a true eText, built within MyMathLab, to create a dynamic, seamless learning experience that would better meet the needs and expectations of his students. Completely clickable and fully integrated—the Trigsted eText is designed for today's learners. Intermediate Algebra is also available with two printed resources to provide additional support for your classroom: The eText Reference is a spiral-bound, printed version of the eText that provides a place for students to do practice work and summarize key concepts from the online videos and animations. In addition to the benefits it provides students, the eText Reference also provides portability for those instructors that prefer a printed text for class preparation. The Guided Notebook is an interactive workbook that guides students through the course by asking them to write down key definitions and work through important examples for each section of the eText. This resource is available in a three-hole-punched, unbound format to provide the foundation for a personalized course notebook. Students can integrate their class notes and homework notes within the appropriate section of the Guided Notebook. Instructors can customize the Guided Notebook files found within MyMathLab. This is the MyMathLab Student Access Kit only, and does not include the supplementary materials listed above.

Fundamentals of Differential Equations Plus MyMathLab with Pearson EText -- Access Card Package Pearson College Division

NOTE: Before purchasing, check with the instructor to ensure the correct ISBN. Several versions of Pearson's MyLab(tm) products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab products, a Course ID may be required, which the instructor will provide. Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing the purchase. For Finite Math courses for students majoring in business, economics, life science, or social sciences. This package includes MyLab Math. The most relevant choice Finite Mathematics is a comprehensive yet flexible text for students majoring in business, economics, life science, or social sciences. Its varied and relevant applications are designed to

pique and hold student interest, and the depth of coverage provides a solid foundation for students' future coursework and careers. Built-in, optional instruction for the latest technology—graphing calculators, spreadsheets, and WolframAlpha—gives instructors flexibility in deciding how to integrate these tools into their course. Thousands of well-crafted exercises—a hallmark of this text—are available in print and online in MyLab(tm) Math to enable a wide range of practice in skills, applications, concepts, and technology. In the 12th Edition, new co-author Steve Hair (Pennsylvania State University) brings a fresh eye to the content and MyLab Math course based on his experience in the classroom. In addition to its updated applications, exercises, and technology coverage, the revision infuses modern topics such as health statistics and content revisions based on user feedback. The authors relied on aggregated student usage and performance data from MyLab Math to improve the quality and quantity of exercises. Personalize learning with MyLab Math MyLab(tm) Math is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. In the new edition, MyLab Math has expanded to include a suite of new videos, Interactive Figures, exercises that require step-by-step solutions, support for the graphing calculator, and more. 0134464427 / 9780134464428 Finite Mathematics & Its Applications plus MyLab Math with Pearson eText -- Access Card Package Package consists of: 0134437764 / 9780134437767 Finite Mathematics & Its Applications 0321431308 / 9780321431301 MyLab Math -- Glue-in Access Card 0321654064 / 9780321654069 MyLab Math Inside Star Sticker

Basic College Mathematics with Access Code Pearson

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products. Packages Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase. Used or rental books If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code. Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- Beginning Algebra by Trigsted, Bodden, and Gallaher is the first online, completely “clickable” Beginning Algebra text to take full advantage of MyMathLab's features and benefits. Kirk Trigsted saw marked improvements in student learning when he started teaching with MyMathLab, but he noticed that most

students started their assignments by going directly to the MyMathLab homework exercises without consulting their textbook. This inspired Kirk to write a true eText, built within MyMathLab, to create a dynamic, seamless learning experience that would better meet the needs and expectations of his students. Completely clickable and fully integrated—the Trigsted eText is designed for today's learners. Beginning Algebra is also available with two printed resources to provide additional support for you: The eText Reference is a spiral-bound, printed version of the eText that provides a place for students to do practice work and summarize key concepts from the online videos and animations. In addition to the benefits it provides students, the eText Reference is also a nice resource for those instructors that prefer a printed text for class preparation. The Guided Notebook is an interactive workbook that guides students through the course by asking them to write down key definitions and work through important examples for each section of the eText. This resource is available in a three-hole-punched, unbound format to provide the foundation for a personalized course notebook. Students can integrate their class notes and homework notes within the appropriate section of the Guided Notebook.

Instructors can customize the Guided Notebook files found within MyMathLab. This is the MyMathLab Student Access Kit only, and does not include the supplementary materials listed above.

College Algebra with Integrated Review and Worksheets Plus New Mymathlab with Pearson Etext-- Access Card Package Pearson

Access codes Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. -- This package consists of the textbook plus an access kit for MyMathLab/MyStatLab. The Bittinger Graphs and Models Series helps students “see the math” and learn algebra by making connections between mathematical concepts and their real-world applications. The authors use a variety of tools and techniques—including side-by-side algebraic and graphical solutions and graphing calculators, when appropriate—to engage and motivate all types of learners. Abundant applications, many of which use real data, provide a context for learning and understanding the math. MyMathLab provides a wide range of homework, tutorial, and assessment tools that make it easy to manage your course online.
