16-hours, Unarmed Skills Training Course for Security Guards:

Pennsylvania Independently Published
At the age of just 19, JW Murphey didn't have access to large amounts of private security industry experience, a bunch of cash, an eBook or the Internet to help him start his security guard company. But, he didn't want to spend years as another cog inside of a large security corporation. Instead of staying employed with a big corporation, he struck out on his own and started his own security agency. Now, in its 4th edition, published by The Security

Officer Network, the popular How to Start a Security Guard Company book includes Murphey's creative strategies for building a private security agency with a minimal up-front investment. This isn't another generic "how to form a business" book. You will easily find a plethora of free resources on the Internet where you can learn business startup basics. This book won't waste your time repeating this information; instead, readers receive immediately actionable advice that's specifically tailored to the private security industry. Written by an author who actually started his own agency, the book details his innovative approaches and strategies; imparts instruction on quantifying the cost of providing security

services; gives tips for under bidding and competing against the big security companies; details tricks to minimize overhead and keep costs low and much, much more. Constantly updated and relevant, with the most recent update made in December of 2017, the book includes an array of helpful, must-have resources including a private security business plan and numerous free-to-use forms and templates.

A Report on the Regulation of Private Security Guard Services Dorrance Publishing Company

This test preparation guide is designed to assist security guards in preparing for the ministry's mandatory test. The guide will outline key areas that security guards should be familiar with to ensure they perform their duties in accordance with the Private Security and Investigative Services Act, 2005 (PSISA) and its regulations. The subjects covered align with the ministry's Training Syllabus for

Security Guards. Although the guide is meant to assist candidates in preparing for and writing the test, it does not constitute a training manual, and is not a substitute for an in-person training course. At the end of each section of this test preparation guide, you will find links to external resources that may be of further assistance to you. Many of these will bring you to various laws and regulations; it is recommended that you have an overall understanding of these and how they relate to key topics covered in the test. Other links will bring you to existing training materials available to the public. While these materials may contain valuable information, please keep in mind that they were not specifically designed for Ontario's security guard and private investigator training and testing program. About the Test The ministry's tests were developed by subject matter experts (SMEs) in the private security and investigative services industry who worked with the ministry's test development consultant, CASTLE Worldwide Inc. The SMEs developed the test questions using a protocol of writing and review that conforms to the best practices

of psychological and test development standards. They comprehensively reviewed and validated each question for appropriateness of the answers and correct answer keys. A panel of SMEs also reviewed and tested the questions and participated in setting the cut scores (pass marks) for the tests. The security guard test is in a written, 60 question, multiple choice format. Test appointments are 2 hours in duration, 75 minutes of which is the allotted test completion time.

A substantial portion of this book was originally commissioned as a training manual for a local security firm. Very good, practical, solid information here that can benefit all entry level security officers, supervisors, and managers as well as clients considering hiring a uniformed guard patrol service. The manual is presented in its complete form with additional material. This book will describe the various types of domestic entry level security employment available, as well as different types of employer, posts, and duties. You will be given tips on ways to make your job safer and easier, as well as hard earned advice on what types of job to

avoid and why. I have over 30 years of experience working with a number of security and investigations firms in three states. I have personally worked dozens of contracts under a variety of circumstances and have observed a lot. These observations, as well as advice for anyone considering choosing a security firm to work for, have been added.

To accomplish its mission of protecting about 9,000 fed. facilities, the Fed. Protective Service (FPS) currently has a budget of about \$1 billion, about 1,200 full time employees, and about 13,000 contract security guards. This testimony discusses findings on: (1) the extent to which FPS ensures that its guards have the required training and certifications before being deployed to a fed. facility; (2) the extent to which FPS ensures that its guards comply with their assigned responsibilities (post orders) once they are deployed at fed. facilities; and (3) security vulnerabilities recently identified related to FPS's guard program. To address these objectives, the auditor conducted site visits at 6 of FPS's 11 regions, and interviewed numerous FPS officials. Illustrations.
